Prospectus

Subject to Completion, dated September 15, 2006

MESA AIR GROUP, INC.

219,667 SHARES OF COMMON STOCK

The selling stockholder of Mesa Air Group, Inc. listed in this prospectus is offering for sale up to 219,667 shares of our common stock issuable upon the exercise of warrants.

We expect that sales made pursuant to this prospectus will be made:

- in broker's transactions;
- in block trades on the NASDAQ National Market;
- in transactions directly with market makers; or
- in privately negotiated sales or otherwise.

We will not receive any of the proceeds of sales by the selling stockholder. The selling stockholder will pay the expenses incurred to register the shares for resale and pay any underwriting discounts, concessions, or brokerage commissions associated with the sale of its shares of common stock.

The selling stockholder will determine when it will sell its shares, and in all cases it will sell its shares at the current market price or at negotiated prices at the time of the sale. Securities laws and SEC regulations may require the selling stockholder to deliver this prospectus to purchasers when it resells its shares of common stock.

Our common stock is traded on the NASDAQ National Market under the symbol "MESA." On September 11, 2006, the last sale price of our common stock as reported on the NASDAQ National Market was \$7.36 per share.

Consider carefully the risk factors beginning on page 6 of this prospectus before investing.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2006.

Important Notice About the Information Presented In This Prospectus

You should rely only on the information provided in this prospectus and the information incorporated by reference. We have not authorized anyone to provide you with different information. The selling stockholder is not offering to sell, or seeking offers to buy, the shares in any state where offers or sales are not permitted. We do not claim the accuracy of the information in this prospectus as of any date other than the date stated on the cover.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents we incorporate by reference contain certain forward-looking statements that involve a number of risks and uncertainties. These statements include, without limitation, information regarding the replacement, deployment, acquisition and financing of certain numbers and types of aircraft, and projected expenses associated therewith; costs of compliance with Federal Aviation Administration regulations and other rules and acts of Congress; the ability to pass taxes, fuel costs, inflation, and various expenses to our customers; the resolution of litigation in a favorable manner; and certain projected financial obligations. These statements, in addition to statements made in conjunction with the words “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” and similar expressions, are forward-looking statements within the meaning of the Safe Harbor provision of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to future events or our future financial performance and only reflect management’s expectations and estimates. The following is a list of factors, among others, that could cause actual results to differ materially from the forward-looking statements:

- changing business conditions in certain market segments and industries;
- changes in Mesa’s code-sharing relationships;
- the inability of US Airways, Delta Air Lines or United Airlines to pay their obligations under the code-share agreements;
- an increase in competition along the routes Mesa operates or plans to operate as an independent carrier;
- changes in general economic conditions;
- changes in fuel prices for aircraft operated independently;
- changes in regional economic conditions;
- changes in Mesa’s relationship with employees and the terms of future collective bargaining agreements;
- the impact of current and future laws;
- Congressional investigations, and governmental regulations affecting the airline industry and Mesa’s operations;
- bureaucratic delays;
- amendments to existing legislation;
- unfavorable resolution of negotiations with municipalities for the leasing of facilities;
- the impact of additional terrorist attacks;
- the impact of consumers unwilling to incur greater costs for flights; and

Table of Contents

- risks associated with the outcome of litigation.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this prospectus to conform them to actual results. We do not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed under the caption “Risk Factors.”

We caution the reader that these risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time to time. Management cannot predict such new risk factors, nor can it assess the impact, if any, of such new risk factors on our businesses or the extent to which any factor or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this prospectus and the documents we incorporate by reference might not occur.

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in Section 21E of the Securities Act.

You should carefully read this prospectus and the documents incorporated by reference in their entirety. They contain information that you should consider when making your investment decision.

PROSPECTUS SUMMARY

This summary highlights selected information from this prospectus and does not contain all of the information that you need to consider in making your investment decision. You should read the entire prospectus, including the risks of investing discussed under “Risk Factors” beginning on page 6 and the following summary together with the more detailed information regarding our company, our financial statements and the notes to those statements and the other documents incorporated by reference in this prospectus, and the exhibits to the registration statement of which this prospectus is a part.

References in this prospectus to “Mesa Air,” the “Company,” “we,” “us,” and “our,” refer to Mesa Air Group, Inc. and its subsidiaries, unless otherwise specified.

Mesa Air Group, Inc.

General

Mesa Air Group, Inc. is a holding company whose principle subsidiaries operate as regional air carriers providing scheduled passenger and airfreight service. As of June 30, 2006, we served 173 cities in 46 states, the District of Columbia, Canada and Mexico and operated a fleet of 185 aircraft with approximately 1,200 daily departures.

Approximately 99% of our consolidated passenger revenues for the quarter ended June 30, 2006 were derived from operations associated with code-share agreements. Our subsidiaries have code-share agreements with US Airways, United Airlines, Delta Air Lines and Midwest Airlines. Our remaining passenger revenues are derived from our independent operations.

In the third quarter of fiscal 2006, approximately 97% of our passenger revenue was associated with revenue-guarantee flying. The US Airways (regional jet and Dash-8), United (regional jet and Dash-8), and Delta (regional jet) code-share agreements are revenue-guarantee flying agreements. Under the terms of these flying agreements, the major carrier controls marketing, scheduling, ticketing, pricing and seat inventories. Our role is simply to operate our fleet in the safest and most reliable manner in exchange for fees paid under a generally fixed payment schedule. We receive a guaranteed payment based upon a fixed minimum monthly amount plus amounts related to departures and block hours flown in addition to direct reimbursement of expenses such as fuel, landing fees and insurance. We are also eligible to receive additional compensation based upon our performance under certain of our revenue-guarantee contracts. Among other advantages, revenue-guarantee arrangements reduce our exposure to fluctuations in passenger traffic and fare levels, as well as fuel prices. In the third quarter of fiscal 2006, approximately 98% of our fuel purchases were reimbursed under revenue guarantee code-share agreements.

In the third quarter of fiscal 2006, approximately 3% of our passenger revenue was associated with pro-rate and independent flying. The US Airways (Beechcraft 1900D turboprop) and Midwest Airlines code-share agreements are pro-rate agreements, for which we received an allocated portion of each passenger’s fare and we pay all of the costs of transporting the passenger.

In addition to carrying passengers, we carry freight and express packages on our passenger flights and have interline small cargo freight agreements with many other carriers. We also have contracts with the U.S. Postal Service for carriage of mail to the cities we serve and occasionally operate charter flights when our aircraft are not otherwise used for scheduled service.

Raytheon Private Placement

On February 7, 2002, in connection with an agreement entered into with the selling stockholder, Raytheon Aircraft Company (“Raytheon”), we granted Raytheon various warrants to purchase up to an aggregate 233,068 shares of our common stock at a per share exercise price of \$10. Raytheon also paid a purchase price of \$1.50 per share to acquire each warrant. The sale of the warrants and the shares underlying the warrants were made pursuant to an exemption from registration pursuant to Section 4(2) under the Securities Act of 1933, as amended. As of the date of

this prospectus, warrants for 219,667 shares are exercisable. We are registering for resale 219,667 shares of our common stock underlying the warrants that were issued in the private offering to the selling stockholder.

Principal Executive Offices

We were incorporated in Nevada in 1996, and our principal executive offices are located at 410 North 44th Street, Suite 100, Phoenix, Arizona 85008. Our telephone number is (602) 685-4000. RISK FACTORS

In addition to the other information contained in this prospectus and in the documents incorporated herein by reference, including our consolidated financial statements and the related notes, you should carefully consider the following factors. If any of the following risks actually occurs, our business could be harmed.

Risks Related to Our Business

We are dependent on our agreements with our code-share partners.

We depend on relationships created by our code-share agreements. We derive a significant portion of our consolidated passenger revenues from our revenue guarantee code-share agreements with US Airways, United Airlines and Delta. Our code-share partners have certain rights to cancel the applicable code-share agreement upon the occurrence of certain events or the giving of appropriate notice, subject to certain conditions. No assurance can be given that one or more of our code-share partners will not serve notice at a later date of their intention to cancel our code-sharing agreement, forcing us to stop selling those routes with the applicable partner's code and potentially reducing our traffic and revenue.

Our code-share agreement with US Airways allows US Airways, subject to certain restrictions, to reduce the combined CRJ fleets utilized under the code-share agreement by one aircraft in any six-month period commencing in June 2006 (except during the calendar year 2007 in which 2 CRJ-200 can be eliminated in each six-month period). In addition, beginning in February 2007, US Airways may eliminate the Dash-8 aircraft upon 180 days prior written notice. US Airways has used this provision to reduce the number of aircraft covered by the code-share agreement and there can be no assurance that, commencing in January 2007, they will not continue to further reduce the number of covered aircraft.

In addition, because a majority of our operating revenues are currently generated under revenue-guarantee code-share agreements, if any one of them is terminated, our operating revenues and net income could be materially adversely affected unless we are able to enter into satisfactory substitute arrangements or, alternatively, fly under our own flight designator code, including obtaining the airport facilities and gates necessary to do so. For the quarter ended June 30, 2006, our US Airways and Pre-Merger US Airways (the current US Airways is a result of a merger between America West and US Airways, Inc. ("Pre-Merger US Airways")) code-share agreements accounted for 50% of our consolidated passenger revenues, our United code-share agreement accounted for 37% of our consolidated passenger revenues and our Delta code-share agreement accounted for 12% of our consolidated passenger revenues. Any material modification to, or termination of, our code-share agreements with any of these partners could have a material adverse effect on our financial condition, the results of our operations and the price of our common stock. Should US Airways, United or Delta's revenue-guarantee code-share agreements be terminated, we cannot assure you that we would be able to enter into substitute code-share arrangements, that any such arrangements would be as favorable to us as the current code-share agreements or that we could successfully fly under our own flight designator code.

If our code-share partners or other regional carriers experience events that negatively impact their financial strength or operations, our operations also may be negatively impacted.

We are directly affected by the financial and operating strength of our code-share partners. Any events that negatively impact the financial strength of our code-share partners or have a long-term effect on the use of our code-

Table of Contents

share partners by airline travelers would likely have a material adverse effect on our business, financial condition and results of operations. In the event of a decrease in the financial or operational strength of any of our code-share partners, such partner may seek to reduce, or be unable to make, the payments due to us under their code-share agreement. In addition, they may reduce utilization of our aircraft. Although there are certain monthly guaranteed payment amounts, there are no minimum levels of utilization specified in the code-share agreements.

Additionally, Pre-Merger US Airways, which accounted for 31% of our consolidated passenger revenue for the fiscal year ended September 30, 2005, filed for bankruptcy protection. On September 16, 2005, the Bankruptcy court entered an order confirming the debtors (US Airways) plan of reorganization, which included the merger between US Airways Group and America West Holding Corporation, the parent company of America West Airlines. US Airways Group now operates under the single brand name of US Airways through two principal operating subsidiaries, US Airways, Inc. and America West Airlines, Inc. As a result of Pre-Merger US Airways' emergence from bankruptcy and their non-assumption of our revenue-guarantee code-share agreement, we expanded our regional jet revenue-guarantee code-share agreement with United and entered into a new revenue-guarantee code-share agreement with Delta.

In addition, on September 14, 2005, Delta Air Lines filed for reorganization under Chapter 11 of the US Bankruptcy Code. Delta has not yet assumed our code-share agreement in its bankruptcy proceeding and could choose to terminate this agreement or seek to renegotiate the agreement on terms less favorable to us. If any of our other current or future code-share partners become bankrupt, our code-share agreement with such partner may not be assumed in bankruptcy and would be terminated. This and other such events could have a material adverse effect on our business, financial condition and results of operations. In addition, any negative events that occur to other regional carriers and that affect public perception of such carriers generally could also have a material adverse effect on our business, financial condition and results of operations.

Our code-share partners may expand their direct operation of regional jets thus limiting the expansion of our relationships with them.

We depend on major airlines like US Airways, United and Delta electing to contract with us instead of purchasing and operating their own regional jets. However, these major airlines possess the resources to acquire and operate their own regional jets instead of entering into contracts with us or other regional carriers. We have no guarantee that in the future our code-share partners will choose to enter into contracts with us instead of purchasing their own regional jets or entering into relationships with competing regional airlines. A decision by US Airways, United or Delta to phase out our contract-based code-share relationships or to enter into similar agreements with competitors could have a material adverse effect on our business, financial condition or results of operations. In addition to Mesa, US Airways, United and Delta have similar code-share agreements with other competing regional airlines.

If we experience a lack of labor availability or strikes, it could result in a decrease of revenues due to the cancellation of flights.

The operation of our business is significantly dependent on the availability of qualified employees, including, specifically, flight crews, mechanics and avionics specialists. Historically, regional airlines have periodically experienced high pilot turnover as a result of air carriers operating larger aircraft hiring their commercial pilots. Further, the addition of aircraft, especially new aircraft types, can result in pilots upgrading between aircraft types and becoming unavailable for duty during the required extensive training periods. There can be no assurance that we will be able to maintain an adequate supply of qualified personnel or that labor expenses will not increase.

At June 30, 2006, we had approximately 4,600 employees, a significant number of whom are members of labor unions, including ALPA and the AFA. Our collective bargaining agreement with ALPA becomes amendable in September 2007 and our collective bargaining agreement with the AFA becomes amendable in June 2006. The inability to negotiate acceptable contracts with existing unions as agreements expire or with new unions could result in work stoppages by the affected workers, lost revenues resulting from the cancellation of flights and increased operating costs as a result of higher wages or benefits paid to union members. We cannot predict which, if any, other

Table of Contents

employee groups may seek union representation or the outcome or the terms of any future collective bargaining agreement and therefore the effect, if any, on our business financial condition and results of operations. If negotiations with unions over collective bargaining agreements prove to be unsuccessful, following specified “cooling off” periods, the unions may initiate a work action, including a strike, which could have a material adverse effect on our business, financial condition and results of operations.

Increases in our labor costs, which constitute a substantial portion of our total operating costs, will cause our earnings to decrease.

Labor costs constitute a significant percentage of our total operating costs. Under our code-share agreements, our reimbursement rates contemplate labor costs that increase on a set schedule generally tied to an increase in the consumer price index or the actual increase in the contract. We are responsible for our labor costs, and we may not be entitled to receive increased payments under our code-share agreements if our labor costs increase above the assumed costs included in the reimbursement rates. As a result, a significant increase in our labor costs above the levels assumed in our reimbursement rates could result in a material reduction in our earnings.

If new airline regulations are passed or are imposed upon our operations, we may incur increased operating costs and experience a decrease in earnings.

Laws and regulations, such as those described below, have been proposed from time to time that could significantly increase the cost of our operations by imposing additional requirements or restrictions on our operations. We cannot predict what laws and regulations will be adopted or what changes to air transportation agreements will be effected, if any, or how they will affect us, and there can be no assurance that laws or regulations currently proposed or enacted in the future will not increase our operating expenses and therefore adversely affect our financial condition and results of operations.

As an interstate air carrier, we are subject to the economic jurisdiction, regulation and continuing air carrier fitness requirements of the DOT, which include required levels of financial, managerial and regulatory fitness. The DOT is authorized to establish consumer protection regulations to prevent unfair methods of competition and deceptive practices, to prohibit certain pricing practices, to inspect a carrier’s books, properties and records, to mandate conditions of carriage and to suspend an air carrier’s fitness to operate. The DOT also has the power to bring proceedings for the enforcement of air carrier economic regulations, including the assessment of civil penalties, and to seek criminal sanctions.

We are also subject to the jurisdiction of the FAA with respect to our aircraft maintenance and operations, including equipment, ground facilities, dispatch, communication, training, weather observation, flight personnel and other matters affecting air safety. To ensure compliance with its regulations, the FAA requires airlines to obtain an operating certificate, which is subject to suspension or revocation for cause, and provides for regular inspections.

We incur substantial costs in maintaining our current certifications and otherwise complying with the laws, rules and regulations to which we are subject. We cannot predict whether we will be able to comply with all present and future laws, rules, regulations and certification requirements or that the cost of continued compliance will not significantly increase our costs of doing business.

The FAA has the authority to issue mandatory orders relating to, among other things, the grounding of aircraft, inspection of aircraft, installation of new safety-related items and removal and replacement of aircraft parts that have failed or may fail in the future. A decision by the FAA to ground, or require time-consuming inspections of, or maintenance on, all or any of our turboprops or regional jets, for any reason, could negatively impact our results of operations.

In addition to state and federal regulation, airports and municipalities enact rules and regulations that affect our operations. From time to time, various airports throughout the country have considered limiting the use of smaller aircraft, such as Embraer or Canadair regional jets, at such airports. The imposition of any limits on the use of our regional jets at any airport at which we operate could interfere with our obligations under our code-share agreements and severely interrupt our business operations.

If additional security and safety measures regulations are adopted, we may incur increased operating costs and experience a decrease in earnings.

Congress has adopted increased safety and security measures designed to increase airline passenger security and protect against terrorist acts. Such measures have resulted in additional operating costs to the airline industry. The Aviation Safety Commission's report recommends the adoption of further measures aimed at improving the safety and security of air travel. We cannot forecast what additional security and safety requirements may be imposed on our operations in the future or the costs or revenue impact that would be associated with complying with such requirements, although such costs and revenue impact could be significant. To the extent that the costs of complying with any additional safety and security measures are not reimbursed by our code-share partners, our operating results and net income could be adversely affected.

If our operating costs increase as our aircraft fleet ages and we are unable to pass along such costs, our earnings will decrease.

As our fleet of aircraft age, the cost of maintaining such aircraft, if not replaced, will likely increase. There can be no assurance that costs of maintenance, including costs to comply with aging aircraft requirements, will not materially increase in the future. Any material increase in such costs could have a material adverse effect on our business, financial condition and results of operations.

Because many aircraft components are required to be replaced after specified numbers of flight hours or take-off and landing cycles, and because new aviation technology may be required to be retrofitted, the cost to maintain aging aircraft will generally exceed the cost to maintain newer aircraft. We believe that the cost to maintain our aircraft in the long-term will be consistent with industry experience for these aircraft types and ages used by comparable airlines.

We believe that our aircraft are mechanically reliable based on the percentage of scheduled flights completed and as of June 30, 2006 the average age of our regional jet fleet is 4.0 years. However, there can be no assurance that such aircraft will continue to be sufficiently reliable over longer periods of time. Furthermore, any public perception that our aircraft are less than completely reliable could have a material adverse effect on our business, financial condition and results of operations.

Our fleet expansion program has required a significant increase in our leverage.

The airline business is very capital intensive and, as a result, many airline companies are highly leveraged. For the quarter ended June 30, 2006, our debt service payments, including principal and interest, totaled \$16.7 million and our aircraft lease payments totaled \$42.1 million. We have significant lease obligations with respect to our aircraft and ground facilities, which aggregated approximately \$2.3 billion at June 30, 2006. As of June 30, 2006, we had permanently financed all but three CRJ-900 aircraft delivered under the 2001 BRAD agreement. We may utilize interim financing provided by the manufacturer and have the ability to fund up to 15 aircraft at any one time under this facility. There are no assurances that we will be able to obtain permanent financing for future aircraft deliveries.

There can be no assurance that our operations will generate sufficient cash flow to make such payments or that we will be able to obtain financing to acquire the additional aircraft necessary for our expansion. If we default under our loan or lease agreements, the lender/lessor has available extensive remedies, including, without limitation, repossession of the respective aircraft and, in the case of large creditors, the effective ability to exert control over how we allocate a significant portion of our revenues. Even if we are able to timely service our debt, the size of our long-term debt and lease obligations could negatively affect our financial condition, results of operations and the price of our common stock in many ways, including:

- increasing the cost, or limiting the availability of, additional financing for working capital, acquisitions or other purposes;
- limiting the ways in which we can use our cash flow, much of which may have to be used to satisfy debt and lease obligations; and

Table of Contents

- adversely affecting our ability to respond to changing business or economic conditions or continue our growth strategy.

Reduced utilization levels of our aircraft under the revenue-guarantee agreements would adversely impact our revenues and earnings.

Even though our revenue-guarantee agreements require a fixed amount per month to compensate us for our fixed costs, if our aircraft are underutilized (including taking into account the stage length and frequency of our scheduled flights) we will lose the opportunity to receive a margin on the variable costs of flights that would have been flown if our aircraft were more fully utilized.

If we incur problems with any of our third-party service providers, our operations could be adversely affected by a resulting decline in revenue or negative public perception about our services.

Our reliance upon others to provide essential services on behalf of our operations may result in the relative inability to control the efficiency and timeliness of contract services. We have entered into agreements with contractors to provide various facilities and services required for our operations, including aircraft maintenance, ground facilities, baggage handling and personnel training. It is likely that similar agreements will be entered into in any new markets we decide to serve. All of these agreements are subject to termination after notice. Any material problems with the efficiency and timeliness of contract services could have a material adverse effect on our business, financial condition and results of operations.

We are at risk of loss and adverse publicity stemming from any accident involving any of our aircraft.

If one of our aircraft were to crash or be involved in an accident, we could be exposed to significant tort liability.

There can be no assurance that the insurance we carry to cover damages arising from any future accidents will be adequate. Accidents could also result in unforeseen mechanical and maintenance costs. In addition, any accident involving an aircraft that we operate could create a public perception that our aircraft are not safe, which could result in air travelers being reluctant to fly on our aircraft. To the extent a decrease in air travelers is associated with our operations not covered by our code-share agreements, such a decrease could have a material adverse affect on our business, financial condition or results of operations.

If we become involved in any material litigation or any existing litigation is concluded in a manner adverse to us, our earnings may decline.

We are, from time to time, subject to various legal proceedings and claims, either asserted or unasserted. Any such claims, whether with or without merit, could be time-consuming and expensive to defend and could divert management's attention and resources. There can be no assurance regarding the outcome of current or future litigation.

In February 2006, Hawaiian Airlines, Inc. ("Hawaiian") filed a complaint against us in the United States Bankruptcy Court for the District of Hawaii (the "Bankruptcy Court") alleging that we breached the terms of a Confidentiality Agreement entered into in April 2004 with the Trustee in Hawaiian's bankruptcy proceedings. Hawaiian's complaint alleges, among other things, that we breached the Confidentiality Agreement by (a) using the evaluation material to obtain a competitive advantage over Hawaiian, through the development and implementation of a business plan to compete with Hawaiian in the inter-island market, and (b) failing to return or destroy any evaluation materials after being notified by Hawaiian on or about May 12, 2004 that Mesa had not been selected as a potential investor for a transaction with Hawaiian. Hawaiian, in its complaint, seeks unspecified damages, requests that Mesa turn over to Hawaiian any evaluation material in our possession, custody or control (the "Turnover Claim"), and an injunction preventing us from providing inter-island transportation services in the State of Hawaii for a period of two years from the date of such injunctive relief.

Mesa vigorously denies Hawaiian's allegations and requests for relief contained in its complaint. In addition to answering Hawaiian's complaint, we filed a counterclaim containing three counts against Hawaiian. The Bankruptcy Court dismissed two of these counts, but Mesa's primary allegation that Hawaiian's lawsuit against Mesa is itself an

Table of Contents

anticompetitive act in violation of the Sherman Anti-trust Act remains. Although the United States District Court for the District of Hawaii (the “District Court”) denied our initial efforts to immediately withdraw the entire lawsuit from the Bankruptcy Court to the District Court, the District Court indicated that it may later withdraw the lawsuit or Mesa’s counterclaim prior to a trial. A trial is scheduled for April 2, 2007.

In May 2006, we filed a motion to dismiss the Turnover Claim contained in Hawaiian’s complaint. The Bankruptcy Court denied our motion to dismiss the Turnover Claim. Mesa does not believe that this denial has a material impact on our position in the lawsuit.

In June 2006, Hawaiian requested a preliminary injunction to prevent us from issuing new airline tickets for the Hawaiian inter-island market for a period of one year. In this request, Hawaiian alleges that initial discovery conducted reveals that Mesa breached the Confidentiality Agreement. Mesa denies these allegations and intends to vigorously defend against Hawaiian’s request for a preliminary injunction. If Hawaiian is successful in obtaining a preliminary injunction, however, our inter-island operations in Hawaii will effectively cease for one year. A hearing in this regard is scheduled for September 15, 2006.

In the event a preliminary injunction is issued in favor of Hawaiian, we believe the cessation and winding down of its operations in Hawaii could have an adverse impact on its financial condition or results of operations for a period of approximately six months following such event. The litigation and claims noted above are subject to inherent uncertainties and our view of such matters may change in the future.

Our business would be harmed if we lose the services of our key personnel.

Our success depends to a large extent on the continued service of our executive management team. We have employment agreements with certain executive officers, but it is possible that members of executive management may leave us. Departures by our executive officers could have a negative impact on our business, as we may not be able to find suitable management personnel to replace departing executives on a timely basis. We do not maintain key-man life insurance on any of our executive officers.

We may experience difficulty finding, training and retaining employees.

Our business is labor intensive, we require large numbers of pilots, flight attendants, maintenance technicians and other personnel. The airline industry has from time to time experienced a shortage of qualified personnel, specifically pilots and maintenance technicians. In addition, as is common with most of our competitors, we have faced considerable turnover of our employees. Although our employee turnover has decreased significantly since September 11, 2001, our pilots, flight attendants and maintenance technicians often leave to work for larger airlines, which generally offer higher salaries and better benefit programs than regional airlines are financially able to offer. Should the turnover of employees, particularly pilots and maintenance technicians, sharply increase, the result will be significantly higher training costs than otherwise would be necessary. We cannot assure you that we will be able to recruit, train and retain the qualified employees that we need to carry out our expansion plans or replace departing employees. If we are unable to hire and retain qualified employees at a reasonable cost, we may be unable to complete our expansion plans, which could have a material adverse effect our financial condition, results of operations and the price of our common stock.

We may be unable to profitably operate our Hawaiian airline service, which could negatively impact our business and operations.

In June 2006, we launched our independent inter-island Hawaiian airline operation named *go!* Providing service in Hawaii will require ongoing investment of working capital by Mesa and significant management attention and focus.

Further, in light of the costs and risks associated with operating an independent low fare regional jet airline, we may be unable to operate the Hawaiian airline profitably, which would negatively impact our business, financial condition and results of operations.

Table of Contents

In addition, our results under our revenue-guarantee contracts offer no meaningful guidance with respect to our future performance in running an independent airline because we have not previously operated as an independent regional jet carrier in Hawaii. We are operating under a new brand that will initially have limited market recognition. Future performance will depend on a number of factors, including our ability to:

- establish a brand that is attractive to our target customers;
- maintain adequate controls over our expenses;
- monitor and manage operational and financial risks;
- secure favorable terms with airports, suppliers and other contractors;
- maintain the safety and security of our operations;
- attract, retain and motivate qualified personnel; and
- react to responses from competitors who are more established in the Hawaiian markets.

Risks Related to Our Industry

If competition in the airline industry increases, we may experience a decline in revenue.

Increased competition in the airline industry as well as competitive pressure on our code-share partners or in our markets could have a material adverse effect on our business, financial condition and results of operation. The airline industry is highly competitive. The earnings of many of the airlines have historically been volatile. The airline industry is susceptible to price discounting, which involves the offering of discount or promotional fares to passengers. Any such fares offered by one airline are normally matched by competing airlines, which may result in lower revenue per passenger, i.e., lower yields, without a corresponding increase in traffic levels. Also, in recent years several new carriers have entered the industry, typically with low cost structures. In some cases, new entrants have initiated or triggered price discounting. The entry of additional new major or regional carriers in any of our markets, as well as increased competition from or the introduction of new services by established carriers, could negatively impact our financial condition and results of operations.

Our reliance on our code-share agreements with our major airline partners for the majority of our revenue means that we must rely on the ability of our code-share partners to adequately promote their respective services and to maintain their respective market share. Competitive pressures by low-fare carriers and price discounting among major airlines could have a material adverse effect on our code-share partners and therefore adversely affect our business, financial condition and results of operations.

The results of operations in the air travel business historically fluctuate in response to general economic conditions. The airline industry is sensitive to changes in economic conditions that affect business and leisure travel and is highly susceptible to unforeseen events, such as political instability, regional hostilities, economic recession, fuel price increases, inflation, adverse weather conditions or other adverse occurrences that result in a decline in air travel. Any event that results in decreased travel or increased competition among airlines could have a material adverse effect on our business, financial condition and results of operations.

In addition to traditional competition among airlines, the industry faces competition from ground and sea transportation alternatives. Video teleconferencing and other methods of electronic communication may add a new dimension of competition to the industry as business travelers seek lower-cost substitutes for air travel.

The airline industry is heavily regulated.

Airlines are subject to extensive regulatory and legal compliance requirements, both domestically and internationally, that involve significant costs. In the last several years, the FAA has issued a number of directives and

Table of Contents

other regulations relating to the maintenance and operation of aircraft that have required us to make significant expenditures. FAA requirements cover, among other things, retirement of older aircraft, security measures, collision avoidance systems, airborne wind shear avoidance systems, noise abatement, commuter aircraft safety and increased inspection and maintenance procedures to be conducted on older aircraft.

We incur substantial costs in maintaining our current certifications and otherwise complying with the laws, rules and regulations to which we are subject. We cannot predict whether we will be able to comply with all present and future laws, rules, regulations and certification requirements or that the cost of continued compliance will not significantly increase our costs of doing business, to the extent such costs are not reimbursed by our code-share partners.

The FAA has the authority to issue mandatory orders relating to, among other things, the grounding of aircraft, inspection of aircraft, installation of new safety-related items and removal and replacement of aircraft parts that have failed or may fail in the future. A decision by the FAA to ground, or require time consuming inspections of or maintenance on, all or any of our aircraft, for any reason, could negatively impact our results of operations.

In addition to state and federal regulation, airports and municipalities enact rules and regulations that affect our operations. From time to time, various airports throughout the country have considered limiting the use of smaller aircraft at such airports. The imposition of any limits on the use of our aircraft at any airport at which we operate could interfere with our obligations under our code-share agreements and severely interrupt our business operations.

Additional laws, regulations, taxes and airport rates and charges have been proposed from time to time that could significantly increase the cost of airline operations or reduce revenues. If adopted, these measures could have had the effect of raising ticket prices, reducing revenue and increasing costs. In addition, as a result of the terrorist attacks in New York and Washington, D.C. in September 2001, the FAA has imposed more stringent security procedures on airlines and imposed security taxes on each ticket sold. We cannot predict what other new regulations may be imposed on airlines and we cannot assure you that laws or regulations enacted in the future will not materially adversely affect our financial condition, results of operations and the price of our common stock.

The airline industry has been subject to a number of strikes which could affect our business.

The airline industry has been negatively impacted by a number of labor strikes. Any new collective bargaining agreement entered into by other regional carriers may result in higher industry wages and add increased pressure on us to increase the wages and benefits of our employees. Furthermore, since each of our code-share partners is a significant source of revenue, any labor disruption or labor strike by the employees of any one of our code-share partners could have a material adverse effect on our financial condition, results of operations and the price of our common stock.

Risks Related to Our Common Stock

Provisions in our charter documents might deter acquisition bids for us.

Our articles of incorporation and bylaws contain provisions that, among other things:

- authorize our board of directors to issue preferred stock ranking senior to our common stock without any action on the part of the shareholders;
- establish advance notice procedures for shareholder proposals, including nominations of directors, to be considered at shareholders' meetings;
- authorize a majority of our board of directors, in certain circumstances, to fill vacancies on the board resulting from an increase in the authorized number of directors or from vacancies;
- restrict the ability of shareholders to modify the number of authorized directors; and

[Table of Contents](#)

- restrict the ability of stockholders to call special meetings of shareholders.

In addition, Section 78.438 of the Nevada general corporation law prohibits us from entering into some business combinations with interested stockholders without the approval of our board of directors. These provisions could make it more difficult for a third party to acquire us, even if doing so would benefit our stockholders.

Our stock price may continue to be volatile and could decline substantially.

The stock market has, from time to time, experienced extreme price and volume fluctuations. Many factors may cause the market price for our common stock to decline following this prospectus, including:

- our operating results failing to meet the expectations of securities analysts or investors in any quarter;
- downward revisions in securities analysts' estimates;
- material announcements by us or our competitors;
- public sales of a substantial number of shares of our common stock following this prospectus;
- governmental regulatory action; or
- adverse changes in general market conditions or economic trends.

USE OF PROCEEDS

This prospectus relates to the resale of shares of our common stock being offered and sold by the selling stockholder named in this prospectus. We will not receive any proceeds from the sale of common stock by the selling stockholder, but will receive the exercise price of the warrants that the selling stockholder must pay to obtain the shares being registered. The exercise price relating to the warrants relating to the shares being registered herein is \$10 per share, or an aggregate amount of \$2,196,670. We plan to use the proceeds from the exercise of the warrants for general corporate purposes and to fund obligations with respect to future regional jet deliveries.

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 75,000,000 shares of common stock, no par value per share, and 2,000,000 shares of preferred stock, no par value per share.

Common Stock

This prospectus, and the registration statement of which it is a part, registers 219,667 shares of common stock issuable upon exercise of warrants issued to the selling stockholder.

The warrants are subject to specified anti-dilution provisions set forth in the Warrant Purchase Agreement attached as an exhibit to the registration statement of which this prospectus is a part.

As of September 11, 2006, there were 34,325,492 shares of common stock outstanding and held of record by 1,044 stockholders. The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Cumulative voting for the election of directors is not permitted subject to preferences that may be applicable to any outstanding shares of preferred stock, the holders of common stock are entitled to receive ratably those dividends as may be declared by the board of directors out of funds legally available therefor. In the event of a liquidation, our dissolution or winding up, holders of the common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preferences of any outstanding shares of preferred stock. Holders of common stock have no preemptive rights and no right to convert their common stock into any other securities. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock are, and all shares of common stock to be outstanding upon completion of the offering will be, fully-paid and nonassessable. Our common stock is listed on the Nasdaq National Market under the symbol "MESA."

Preferred Stock

There are no shares of preferred stock outstanding. The board of directors has the authority, without further action by the stockholders, to issue up to 2,000,000 shares of preferred stock, no par value per share, in one or more series and to fix the powers, preferences, privileges, rights and qualifications, limitations or restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences, sinking fund terms and the number of shares constituting any series or the designation of the series, without any further vote or action by stockholders. We believe that the board of directors' authority to set the terms of, and our ability to issue, preferred stock will provide flexibility in connection with possible financing transactions in the future. The issuance of preferred stock, however, could adversely affect the voting power of holders of common stock, and the likelihood that the holders will receive dividend payments and payments upon liquidation and could have the effect of delaying, deferring or preventing a change of control in us. We have no present plan to issue any shares of preferred stock.

Anti-Takeover Provisions of Nevada Law

We are subject to the provisions of the Nevada private corporation law, which are anti-takeover provisions. In general, the provisions of Sections 78.411-444 prohibit a publicly held Nevada corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the "business combination" or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a "business combination" includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an "interested stockholder" is a person who, together with affiliates and associates, owns or within three years prior to the determination of interested stockholder status, did own, 10% or more of a corporation's voting stock. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

Limitations on Liability and Indemnification of Officers and Directors

Our articles of incorporation provide that, to the fullest extent permitted by Nevada law, none of our directors will be personally liable to us or to our stockholders for monetary damages for breach of fiduciary duties. The provision effectively eliminates our rights and the rights of our stockholders to recover monetary damages against a director for breach of fiduciary duty as a director, including breaches from grossly negligent conduct. This provision does not, however, exonerate directors from liability under federal securities laws or for (1) breach of a director's duty of loyalty to us or to our stockholders, (2) acts or omissions not in good faith or that involve intentional misconduct or knowing violation of law, (3) specified willful or negligent acts relating to the payment of dividends or the repurchase or redemption of securities or (4) any transaction from which a director has derived an improper personal benefit. Our bylaws provide for indemnification of our officers and directors to the fullest extent permitted by applicable law. We also have entered into separate indemnification agreements with each of our directors and executive officers that impose contractual indemnification obligations on us with respect to specified claims made against such officers and directors.

Transfer Agent and Registrar

Computershare Trust Company is the transfer agent and registrar for our common stock.

SELLING STOCKHOLDER

The following table sets forth information as of September 12, 2006, with respect to the selling stockholder and the principal amounts of common stock beneficially owned by the selling stockholder that may be offered under this prospectus. This information is based on information provided by the selling stockholder pursuant to a questionnaire setting forth the information specified below. The selling stockholder, including its transferees, pledgees, donees and successors (collectively, the “selling stockholder”), may from time to time offer and sell pursuant to this prospectus or a supplement hereto any or all of the common stock held by that selling stockholder.

The selling stockholder may offer all, some or none of the common stock. Based upon information provided to us by the selling stockholder, no selling stockholder beneficially owns one percent or more of our common stock, assuming exercise of the warrants. The selling stockholder has not held any position or office or has had any material relationship with us within the past three years, except as indicated below under the caption “—Relationship with Selling Stockholder.”

Information concerning the selling stockholder may change from time to time and any changed information will be set forth in supplements to this prospectus.

Relationship with Selling Stockholder

In February 2002, we, along with our subsidiary, Mesa Airlines, Inc. (“MAI”), reached an agreement with Raytheon and its affiliate Raytheon Aircraft Credit Corporation (“RACC”) to reduce the operating costs of MAI’s Beechcraft 1900D fleet financed by RACC. In consideration for RACC’s financial accommodations under that agreement, we granted Raytheon an option to purchase up to 233,068 warrants over a three-year period pursuant to a warrant purchase agreement. Each warrant entitles the holder to purchase one share of common stock. Pursuant to the warrant purchase agreement, Raytheon has the right to cause us to register shares of common stock under the Securities Act. Under the terms of the warrant purchase agreement, Raytheon has the right so long as it holds any warrants or warrant shares, to require us to file a registration statement under the Securities Act covering all of the warrant shares held by it and to request that such registration remain effective until October 15, 2006. In addition, the warrant purchase agreement provides for “piggyback” registration rights with respect to the warrant shares whenever we file a registration statement on a registration form that can be used to register the warrant shares held by Raytheon. Raytheon must pay its *pro rata* share of the registration expenses and reasonable maintenance cost incurred in connection with these registrations. As of the date hereof, warrants for 219,667 shares are currently exercisable. We

[Table of Contents](#)

are registering for resale 219,667 shares of our common stock underlying the warrants that were issued in the private offering to Raytheon.

As of the date hereof, MAI owns 34 Beechcraft 1900D Airliner Aircraft which were purchased from Raytheon and financed by RACC. The aggregate outstanding principal amount of MAI's financing obligations owing to RACC as of July 31, 2006 is \$80,508,464. MAI also purchases (a) spare parts from Raytheon Aircraft Parts Inventory & Distribution Company LLC, which company is owned by Raytheon, and (b) aircraft-related services from Raytheon Aircraft Services, Inc., which company is an affiliate of Raytheon.

PLAN OF DISTRIBUTION

The common stock is being registered to permit resale of these securities by the selling stockholder from time to time after the date of this prospectus. The selling stockholder has agreed, among other things, to bear the expenses incurred in connection with the registration and sale of the common stock covered by this prospectus. We will not receive any of the proceeds from the offering of the common stock by the selling stockholder but will receive the exercise price of the warrants that the selling stockholder must pay to obtain the shares being registered. The exercise price relating to the warrants relating to the shares being registered herein is \$10 per share, or an aggregate amount of \$2,196,670.

The selling stockholder and its successors, including its transferees, pledgees or donees or its successors, may sell the common stock directly to purchasers or through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions from the selling stockholder or the purchasers. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved.

The common stock may be sold in one or more transactions at fixed prices, at prevailing market prices, at varying prices determined at the time of sale, or at negotiated prices. We expect that sales made pursuant to this prospectus will be made:

- in broker's transactions;
- in block trades on the NASDAQ National Market;
- in transactions directly with market makers; or
- in privately negotiated sales or otherwise.

Our common stock is listed for trading on the Nasdaq National Market under the symbol "Mesa."

In connection with distributions of the common stock or otherwise, the selling stockholder may enter into hedging transactions with broker-dealers. In connection with such transactions, broker-dealers may engage in short sales of the common stock in the course of hedging the positions they assume with the selling stockholder. The selling stockholder may also sell common stock short and redeliver the common stock to close out such short positions. The selling stockholder may also enter into option or other transactions with broker-dealers which require the delivery to the broker-dealer of the common stock, which the broker-dealer may resell or otherwise transfer pursuant to this prospectus. The selling stockholder may also loan or pledge common stock to a broker-dealer and the broker-dealer may sell the common stock so loaned or, upon a default, the broker-dealer may effect sales of the pledged common stock pursuant to this prospectus.

Broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from the selling stockholder in amounts to be negotiated in connection with the sale. Such broker-dealers and any other participating broker-dealers may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales and any such commission, discount or concession may be deemed to be underwriting discounts or commissions under the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

Commissions and discounts, if any, attributable to the sales of the common stock will be borne by the selling stockholder. The selling shareholders may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of the common stock against various liabilities, including liabilities arising under the Securities Act.

In order to comply with the securities laws of various states, if applicable, sales of the common stock made in those states will only be through registered or licensed brokers or dealers. In addition, some states do not allow the securities to be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with by us and the selling stockholder.

[Table of Contents](#)

Under applicable rules and regulations of the Exchange Act, any person engaged in the distribution of the common stock may not simultaneously engage in market-making activities with respect to our common stock for a period of up to five business days prior to the commencement of such distribution. In addition to those restrictions, each selling stockholder will be subject to the Exchange Act and the rules and regulations under the Exchange Act, including, Regulation M and Rule 10b-7, which provisions may limit the timing of the purchases and sales of our securities by the selling stockholder.

LEGAL MATTERS

The validity of the shares of common stock offered hereby will be passed upon for us by Squire, Sanders & Dempsey L.L.P., 40 North Central Avenue, Suite 2700, Phoenix, Arizona 85004.

Item 14. Other Expenses of Issuance and Distribution

The following table sets forth all expenses payable by us in connection with the offering of the common stock being registered, other than discounts and commissions. The selling stockholder will pay these expenses.

Registration Fee	\$ 215
Legal Fees and Expenses	\$25,000
Accounting Fees and Expenses	\$15,000
Total	\$40,215

Item 15. Indemnification of Officers and Directors

The Nevada General Corporation Law provides for indemnification of directors, officers, employees and agents, subject to certain limitations (Section 78.7502 Nevada General Corporation Law (“NGCL”). Article Eighth of our Certificate of Incorporation provides that we may indemnify all persons whom it has the power to indemnify under Section 78.7502 of the NGCL, whether civil, criminal, administrative or investigative (including an action by or in the right of Mesa, by reason of the fact that he is or was serving as our director or officer (or is or was serving at our request in a similar capacity with another entity), shall be indemnified and held harmless by us to the fullest extent authorized by the NGCL. The right of indemnification includes the right to be paid by the Company the expenses incurred in defending any such action, suit or proceeding in advance of its final disposition. If required by us, however, such advancement of expenses shall be made only upon delivery of an undertaking by such director or officer to repay all amounts so advanced if it is ultimately determined that such director or officer is not entitled to be indemnified.

As permitted by Section 78.747 of the NGCL, the Company’s Certificate of Incorporation contains provisions eliminating a director’s personal liability for monetary damages to us and our stockholders arising from a breach of a director’s fiduciary duty except for liability under Section 78.747 of the NGCL or liability for acts or omissions which involve intentional misconduct, fraud or a knowing violation of law or for the authorization of the unlawful payment of a dividend or other distribution on the Company’s capital stock, or the unlawful purchase of its capital stock.

(1) Incorporated by reference to Mesa Air's Amendment No. 1 to Form S-18, Registration No. 33-11765 filed on March 6, 1987.

Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (1)(i), (ii) and (iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference into the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes, that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(e) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement

Table of Contents

shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Phoenix, State of Arizona, on September 15, 2006.

(1) Incorporated by reference to Mesa Air's Amendment No. 1 to Form S-18, Registration No. 33-11765 filed on March 6, 1987.

THE WARRANTS EVIDENCED HEREBY WERE ISSUED IN A TRANSACTION THAT WAS NOT REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR ANY STATE OR OTHER SECURITIES LAW. THE HOLDER HEREOF, BY ACQUIRING THIS INSTRUMENT, AGREES FOR THE BENEFIT OF MESA AIR GROUP, INC. (THE "ISSUER") THAT THE WARRANTS EVIDENCED HEREBY MAY BE OFFERED, SOLD, PLEDGED, HYPOTHECATED, ASSIGNED OR OTHERWISE TRANSFERRED ONLY (A) (1) PURSUANT TO AN AVAILABLE EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT, OR (2) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT; AND (B) PURSUANT TO AN AVAILABLE EXEMPTION OR EFFECTIVE REGISTRATION UNDER ANY APPLICABLE STATE OR OTHER SECURITIES LAW (TO THE EXTENT THAT THE HOLDER HEREOF RELIES ON AN EXEMPTION OR EXEMPTIONS DESCRIBED ABOVE, THE HOLDER HEREOF MUST HAVE FIRST OBTAINED THE WRITTEN OPINION OF COUNSEL REASONABLY ACCEPTABLE TO THE ISSUER THAT THE PROPOSED DISPOSITION IS CONSISTENT WITH THE EXEMPTION PROVISIONS OF THE SECURITIES ACT AS WELL AS ANY APPLICABLE "BLUE SKY" OR SIMILAR SECURITIES LAW).

THE WARRANTS EVIDENCED HEREBY AND THE SECURITIES ISSUABLE UPON EXERCISE THEREOF ARE SUBJECT TO A WARRANT PURCHASE AGREEMENT DATED FEBRUARY 7, 2002 BETWEEN THE ISSUER AND RAYTHEON AIRCRAFT COMPANY (AS THE SAME MAY BE SUPPLEMENTED, MODIFIED, AMENDED OR RESTATED FROM TIME TO TIME, THE "WARRANT PURCHASE AGREEMENT"). A COPY OF THE WARRANT PURCHASE AGREEMENT IS AVAILABLE FOR REVIEW AT THE PRINCIPAL OFFICE OF THE ISSUER.

COMMON STOCK PURCHASE WARRANTS

No. _____
Issuance Date: _____, 200__

Capitalized terms used and not otherwise defined in this instrument shall have the meanings assigned to them in the Warrant Purchase Agreement. The Issuer certifies that **Raytheon Aircraft Company** ("RAC") is the Holder of _____ warrants (the "**Warrants**"), each Warrant entitling the Holder to purchase one fully paid and nonassessable share of the common stock of the Issuer,

no par value (the “**Common Stock**”), upon the terms and subject to the provisions of the Warrant Purchase Agreement and this instrument (the “**Warrant Certificate**”). The Exercise Price shall initially be \$10.00 per Warrant. The Exercise Price and the number of Warrants evidenced hereby shall be subject to adjustment as provided in the Warrant Purchase Agreement. The Warrants evidenced hereby shall be exercisable at any time and from time to time until the close of business on the Final Expiration Date which is the third anniversary of the date of issuance of this instrument.

1. Exercise of Warrants.

1.1 Each Warrant evidenced hereby may be exercised by the Holder of this Warrant Certificate by surrender hereof to Computershare Trust Company in its capacity as stock transfer agent for the Issuer (such entity or any successor stock transfer agent reasonably acceptable to RAC, is herein referred to as the “**Transfer Agent**”), together with the Exercise Form, in the form attached hereto as Annex 1 (the “**Exercise Form**”), duly completed and executed, and payment of an amount equal to the Exercise Price multiplied by the number of Warrants being exercised (as reduced by any Set-off Payment as certified by RAC and contemplated by Section 3 of the Warrant Purchase Agreement). At the option of the Holder hereof, payment of the Exercise Price (less any applicable Set-off Payment) may be made by either (i) cash, (ii) a certified or cashier’s check payable to the order of the Issuer, (iii) if the Issuer shall consent, exercise of the net issuance option pursuant to Section 1.4 hereof, or (iv) any combination of the foregoing methods. Upon the Transfer Agent’s receipt of this Warrant Certificate, the duly completed and executed Exercise Form and the requisite payment, the Transfer Agent shall issue and deliver (or cause to be delivered) stock certificates representing the aggregate number of shares of Common Stock being purchased. In the event that less than all of the Warrants evidenced hereby are being exercised, the Transfer Agent shall issue and deliver (or cause to be delivered) a new Warrant Certificate or Certificates at the same time such stock certificates are delivered. That new Warrant Certificate or those new Warrant Certificates shall entitle the persons in whose names they are registered to exercise in the aggregate the number of Warrants not exercised in that partial exercise and shall otherwise have the same terms and provisions as this Warrant Certificate.

1.2 In the event that the Holder of this Warrant Certificate desires that any or all of the stock certificates to be issued upon the exercise of any Warrants evidenced hereby be registered in a name or names other than that of such Holder, such Holder must so request in writing at the time of exercise.

1.3 Upon due exercise by the Holder hereof of any Warrants evidenced hereby, whether in whole or in part, such Holder (or any other person to whom a stock certificate is to be issued) shall be deemed for all purposes to have become the holder of record of the shares of Common Stock for which those Warrants have been

so exercised effective immediately prior to the close of business on the day this Warrant Certificate, the duly completed and executed Exercise Form and the requisite payment are duly delivered to the Transfer Agent, irrespective of the date of actual delivery of the stock certificates representing such shares of Common Stock.

1.4 Notwithstanding anything to the contrary set forth herein, if the current market value of a share of Common Stock (determined in accordance with Section 7(b) of the Warrant Purchase Agreement) is greater than the Exercise Price on the Date of Determination and the Issuer consents, in lieu of exercising Warrants evidenced hereby for cash, the Holder hereof may elect to receive shares of Common Stock equal to the value (determined in the manner set forth below) of a designated number of such Warrants by surrender of this Warrant Certificate at the principal office of the Transfer Agent together with a duly completed and executed Exercise Form. The **“Date of Determination”** is the business day immediately preceding the day on which this Warrant Certificate is being delivered to the Transfer Agent pursuant to this Section 1. In such event, the Transfer Agent shall issue to the Holder hereof a number of shares of Common Stock computed using the following formula:

$$Y = \frac{X(A-B)}{A}$$

Where:

A = the current market value of a share of Common Stock on the Date of Determination;

B = the Exercise Price as of the close of business on the Date of Determination;

X = the number of shares of Common Stock purchasable upon exercise of the Warrants being cancelled if such Warrants were being exercised instead of being cancelled; and

Y = the number of shares of Common Stock to be issued to such Holder.

2. Surrender of Warrants; Expenses.

2.1 Whether in connection with the exercise, transfer, split-up, combination, exchange or replacement of this Warrant Certificate or any Warrants evidenced hereby, surrender of this Warrant Certificate shall be made to the Transfer Agent during normal business hours on a business day (unless the Transfer Agent otherwise permits) at the principal office of the Transfer Agent located at 12039 West Alameda Parkway, Suite Z-2, Lakewood, CO 80228, or to such other office or to any duly authorized representative of the Transfer Agent as from time to time

may be designated by the Transfer Agent by written notice given to the Holders of the Warrants.

2.2 The Issuer shall pay all costs and expenses incurred in connection with the exercise, transfer, split-up, combination, exchange or replacement of this Warrant Certificate or any Warrants evidenced hereby, including the costs of preparation, execution and delivery of Warrant Certificates and stock certificates, and shall pay all taxes (other than any taxes measured by the income of any person other than the Issuer) and other charges imposed by law payable in connection with the transfer, split-up, combination, exchange or replacement of this Warrant Certificate or any Warrants evidenced hereby except as otherwise provided in Sections 5(c) and 5(d) of the Warrant Purchase Agreement.

3. Warrant Register; Exchange; Transfer; Loss.

3.1 The Transfer Agent shall, at all times, maintain at its principal office an open register for the Warrants, in which the Transfer Agent shall record the name and address of each Holder to whom Warrants have been issued or transferred.

3.2 Subject to applicable law and the provisions of the Warrant Purchase Agreement, this Warrant Certificate may be exchanged for two or more Warrant Certificates entitling the Holder hereof to exercise the same aggregate number of Warrants at the same Exercise Price and otherwise having the same terms and provisions as this Warrant Certificate. The Holder hereof may request such an exchange by surrendering this Warrant Certificate to the Transfer Agent, together with a written request specifying the desired number of Warrant Certificates and the allocation among them of the Warrants evidenced hereby.

3.3 Subject to applicable law and the provisions of the Warrant Purchase Agreement, this Warrant Certificate and the Warrants evidenced hereby may be transferred, in whole or in part, by the Holder hereof. A transfer shall be effected by surrendering this Warrant Certificate to the Transfer Agent, together with an Assignment Form, in the form attached hereto as Annex 2 (the "**Assignment Form**"), duly completed and executed. Within five business days after the Transfer Agent's receipt of this Warrant Certificate and the Assignment Form so completed and executed, the Transfer Agent shall issue and deliver to each transferee a new Warrant Certificate evidencing the number of Warrants being transferred to such person and otherwise having the same Exercise Price and other terms and provisions of this Warrant Certificate, which the Transfer Agent shall register in such new Holder's name. To the extent applicable, the Transfer Agent shall issue to the Holder hereof a new Warrant Certificate evidencing the Warrants not being transferred to any person and otherwise having the same Exercise Price and other terms and provisions of this Warrant Certificate.

3.4 In the event of the loss, theft or destruction of this Warrant Certificate, the Transfer Agent shall execute and deliver an identical Warrant Certificate to the Holder hereof in substitution herefor upon the Transfer Agent's receipt of evidence reasonably satisfactory to the Transfer Agent of such event (with the affidavit of an institutional Holder or of Raytheon Aircraft Company being such sufficient evidence).

4. Authorization of Transfer Agent. The Issuer hereby irrevocably authorizes and directs the Transfer Agent to take all action and execute all documents contemplated by this Warrant Certificate.

5. Rights and Obligations of the Issuer and the Warrant Holder. The Issuer and the Holder of this Warrant Certificate are entitled to the rights and bound by the obligations set forth in the Warrant Purchase Agreement, all of which rights and obligations are hereby incorporated by reference herein. Except as otherwise provided in Section 1.3 hereof or Section 6 of the Warrant Purchase Agreement, this Warrant Certificate shall not entitle its Holder to any rights as a stockholder of the Issuer either in law or equity, including, without limitation, the right to vote such shares, receive dividends or other distributions thereon, exercise preemptive rights or be notified of stockholder meetings, and such Holder shall not be entitled to any notice or other communications concerning the business affairs of the Issuer. The rights of the Holder are limited to those expressed in this Warrant Certificate and the Warrant Purchase Agreement.

[the remainder of page intentionally left blank]

IN WITNESS WHEREOF, the Issuer has caused this Warrant Certificate to be executed by its duly authorized representative and attested to by its Secretary or an Assistant Secretary.

OPINION OF SQUIRE, SANDERS & DEMPSEY L.L.P.

September 15, 2006

Securities and Exchange Commission
450 Fifth Street, N.W.
Washington, D.C. 20549

RE: MESA AIR GROUP, INC.-REGISTRATION STATEMENT ON FORM S-3

Ladies and Gentlemen:

We have acted as counsel to Mesa Air Group, Inc., a Nevada corporation (the "Company") in connection with the registration for sale under the Securities Act of 1933, as amended (the "Act"), of 219,667 shares of its common stock, no par value per share ("Common Stock"), to be sold by the selling stockholder identified therein, all of which shares are issuable upon the exercise of an outstanding warrant (the "Selling Stockholder Shares"), pursuant to a Registration Statement on Form S-3 (the "Registration Statement"), and certain matters relating thereto.

In that connection, we have examined such documents, corporate records and other instruments and undertaken such further inquiry as we have deemed necessary or appropriate for purposes of this opinion, including, but not limited to, examination of the Registration Statement, the warrant relating to the Selling Stockholder Shares and the Certificate of Incorporation and Bylaws of the Company, including all amendments thereto. In our examination, we have assumed the genuineness of all signatures, the legal capacity of all natural persons, the accuracy and completeness of all documents submitted to us, the authenticity of all original documents, and the conformity to authentic original documents of all documents submitted to us as copies (including telecopies). This opinion letter is given, and all statements herein are made, in the context of the foregoing.

Based upon, subject to and limited by the foregoing, we are of the opinion that when the Selling Stockholder Shares are issued (before resale pursuant to the Registration Statement) upon exercise of a currently outstanding warrant to purchase Common Stock (and the exercise price of such warrant is received therefor), such Selling Stockholder Shares will be duly authorized, validly issued, fully paid and nonassessable.

We hereby consent to the use of this opinion as an exhibit to the Registration Statement. In giving this consent, we do not thereby admit that we are "experts" within the meaning of the Act, nor do we admit that we are within the category of persons whose consent is required under Section 7 of the Act or under the rules and regulations of the Securities and Exchange Commission.

We do not express an opinion on any matters other than those expressly set forth in this letter.

Very truly yours,

/s/ Squire, Sanders & Dempsey L.L.P.

SQUIRE, SANDERS & DEMPSEY L.L.P.

WARRANT PURCHASE AGREEMENT

This Warrant Purchase Agreement (this “**Agreement**”) is executed this 7th day of February, 2002, by Mesa Air Group, Inc., a Nevada corporation (the “**Company**”), in favor of Raytheon Aircraft Company, a Kansas corporation (“**RAC**”), in accordance with the terms of that certain Settlement Agreement dated as of February 7, 2002, between the Company, certain of its subsidiaries, RAC and certain of its affiliates (the “**Settlement Agreement**”). In consideration of certain undertakings by RAC in favor of the Company under the Settlement Agreement and the payment of \$0.01 in cash by RAC to the Company, the Company has agreed to grant RAC an option to purchase up to 233,068 warrants (each, a “**Warrant**”) each to purchase one fully paid and non-assessable share of the common stock of the Company, with no par value (the “**Common Stock**”). The shares of Common Stock purchasable upon exercise of the Warrants and the purchase price per Warrant are referred to herein as the “**Warrant Shares**” and the “**Exercise Price**,” respectively.

Now, therefore, in consideration of the foregoing, the covenants and agreements hereinafter set forth and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, the Company and RAC agree as follows:

1. (a) Option to Purchase Warrants. Subject to the terms and conditions contained herein, the Company hereby grants RAC an option to purchase up to 233,068 Warrants in accordance with the following schedule (RAC’s option to purchase the specified number of Warrants on each Option Exercise Date listed below is referred to individually as a “**Warrant Option**” and collectively as the “**Warrant Options**”):

Option Exercise Date	Number of Warrants
2001 FY Relief Payment Date	13,401
2002 FY Relief Payment Date	116,534
2003 FY Relief Payment Date	58,267
2004 FY Relief Payment Date	44,866
	<u>233,068</u>

Notwithstanding the foregoing, if at any time there shall exist (i) any default by the Company and/or its subsidiaries of their payment obligations under any of the Notes or any other Transaction Document that is not cured within ten (10) days following RAC’s delivery to the Company of notice thereof, or (ii) any breach by

Mesa of Section 2.1 of the Settlement Agreement (any such default or breach being referred to as a “**Mesa Default**”), the Option Exercise Date for all Warrant Options (to the extent not previously exercised) shall occur immediately upon the existence of such Mesa Default. Each Warrant Option shall be exercisable for a period of 10 days from and after the related Option Exercise Date or at any time that a Mesa Default shall exist.

(b) Option Purchase Price. The purchase price payable to the Company for a Warrant Option (the “**Option Purchase Price**”) shall be \$1.506 per Warrant.

(c) Issuance of Warrants. In the event that RAC elects to exercise a Warrant Option, Computershare Trust Company, in its capacity as stock transfer agent for the Company with respect to the Warrants and the Warrant Shares (such entity or any successor stock transfer agent reasonably acceptable to RAC, the “**Transfer Agent**”) shall issue the related number of Warrants (with each Warrant to initially be exercisable for one share of Common Stock) to RAC, to be evidenced by a Warrant Certificate substantially in the form attached as Exhibit A hereto (each a “**Warrant Certificate**”), contemporaneously either (1) with RAC and the Company certification as to Company’s contemporaneous receipt in immediately available funds of the related Option Purchase Price and the amount of expense relief for the prior fiscal year (or portion thereof) pursuant to Section 1.1 of the Settlement Agreement, or (2) RAC’s certification that a Mesa Default shall have occurred and be continuing and that the Company has received payment of the related Option Purchase Price, either in cash or by setting off against any obligations owing to the Raytheon Entities that are then due and payable by the Company or any of its affiliates, including, without limitation, amounts owing in respect of the Settlement Agreement, the Notes, the Payment Deferral Note, the Raytheon Trade Accounts and amounts required to be paid to meet aircraft return conditions (such payment by setting off is referred to as a “**Set-off Payment**”). RAC and any subsequent registered holder of a Warrant (each, a “**Holder**”) shall have the rights and obligations set forth in this Agreement and in the Warrant Certificate evidencing such Warrant.

2. Warrant Certificate.

(a) Form of Warrant Certificate. Each Warrant shall be evidenced by a Warrant Certificate. Each Warrant Certificate shall entitle, but in no way oblige, the Holder thereof to exercise such number of Warrants as shall be set forth thereon at the Exercise Price; *provided*, that the number of Warrants and the Exercise Price shall be subject to adjustment as provided herein. Each Warrant Certificate shall provide for a “net issuance request,” which will permit the Holder to request that the Company allow the Holder thereof to surrender some of the Warrants evidenced thereby for cancellation and receive in exchange for other Warrants evidenced thereby shares of Common Stock, without the payment of any cash, on the basis of a formula set forth in such Warrant Certificate, *provided*,

however, that the Company shall have no obligation to agree to the issuance of the Warrant Shares on a net issuance basis.

(b) Signature and Registration on the Books of the Transfer Agent.

(i) The Warrant Certificates shall be manually executed on behalf of the Company by its Chairman of the Board, its President or any Vice President and shall be manually attested by the Secretary or an Assistant Secretary of the Company. The Company shall deliver each Warrant Certificate, undated, that is subject to each Warrant Option to the Transfer Agent by not later than February 7, 2002. The Transfer Agent shall thereupon notify RAC in writing of its receipt of the Warrant Certificates.

(ii) The Transfer Agent will keep or cause to be kept at its principal office books for the registration and transfer of the Warrant Certificates and Warrant Shares issuable hereunder.

(iii) The Transfer Agent shall date each Warrant Certificate upon issuance pursuant to exercise of each Warrant Option.

(c) Transfer, Split-Up, Combination and Exchange of Warrant Certificates. Subject to compliance with all applicable laws and the provisions of this Agreement, at any time prior to the close of business on the day three (3) years from the date shown as the issuance date on the face of the applicable Warrant Certificate, or if such day falls on a weekend or holiday, the next following day on which banks in Phoenix, Arizona are normally open for business (the "**Final Expiration Date**"), any Warrant Certificate or Warrant Certificates may be transferred, split up, combined or exchanged for another Warrant Certificate or Warrant Certificates, entitling the Holder or Holders thereof to exercise the same number of Warrants as the Warrant Certificate or Warrant Certificates surrendered to the Transfer Agent by the Holder thereof then entitled such Holder to exercise. Any Holder desiring to transfer, split up, combine or exchange any Warrant Certificate or Warrant Certificates shall make such request in writing delivered to the Transfer Agent with a copy to the Company, and shall surrender the Warrant Certificate or Warrant Certificates to be transferred, split up, combined or exchanged, at the principal office of the Transfer Agent. Thereupon the Transfer Agent shall deliver to the person or persons entitled thereto a Warrant Certificate or Warrant Certificates, as the case may be, as so requested.

(d) Subsequent Issuance of Warrant Certificates. Subsequent to their original issuance in accordance with Section 1, no Warrant Certificates shall be issued except (i) Warrant Certificates issued upon any transfer, combination, split up or exchange of Warrant Certificates pursuant to Section 2(c), (ii) Warrant Certificates issued in replacement of mutilated, destroyed, lost or stolen Warrant Certificates, and (iii) any Warrant Certificate issued pursuant to Section 3(d) upon

the partial exercise of any Warrant Certificate to evidence the unexercised portion of such Warrant Certificate.

3. Exercise of Warrants; Exercise Price.

(a) The Holder of any Warrant Certificate may exercise the Warrants evidenced thereby in whole or in part by surrendering such Warrant Certificate, with the form of election to exercise attached thereto duly completed and executed, to the Transfer Agent at its principal office with a copy to the Company, together, to the extent necessary, with payment of the aggregate Exercise Price for the Warrants being exercised, at or prior to the close of business on the Final Expiration Date.

(b) The Exercise Price for each Warrant shall initially be \$10.00, which the Company represents and warrants is the fair market value per share of the Common Stock as of January 8, 2002 based on the then-prevailing trading price. The Exercise Price shall be subject to adjustment from time to time as provided in Section 6 and shall be payable in accordance with Section 3(c).

(c) Upon receipt of a Warrant Certificate, with the form of election to exercise duly completed and executed, accompanied by payment of the aggregate Exercise Price for the Warrants being exercised, except (x) to the extent that the Holder thereof has made, and the Company has accepted, a net issuance request, and an amount equal to any applicable transfer taxes required to be paid by such Holder in accordance with Section 5(c) in cash or by certified check or cashier's check payable to the order of the Company or (y) to the extent that RAC shall have certified that a Mesa Default shall have occurred and be continuing and that it has made a Set-off Payment in the amount specified in that certification, the Company shall promptly: (i) requisition from the Transfer Agent certificates for the number of shares of Common Stock being purchased; (ii) when appropriate, prepare or cause to be prepared a check for the amount of cash to be paid in lieu of the issuance of a fractional share in accordance with Section 7; (iii) cause the Transfer Agent to deliver such certificates to or upon the order of such Holder, registered in such name or names as designated by such Holder; and (iv) when appropriate, deliver such check to or upon the order of such Holder. The Company hereby irrevocably authorizes the Transfer Agent to comply with all such requests from the Holder or the Company in accordance with this Agreement, including, without limitation, this Section 3(c).

(d) If the Holder of any Warrant Certificate shall exercise less than all the Warrants evidenced thereby, a new Warrant Certificate evidencing a number of Warrants equal to the number of Warrants remaining unexercised shall be issued by the Transfer Agent to such Holder or to its duly authorized assigns, subject to the provisions of Section 7.

4. Cancellation of Warrant Certificates. All Warrant Certificates surrendered to the Transfer Agent for exercise, transfer, split up, combination or exchange shall be canceled by it, and no Warrant Certificates shall be issued in lieu thereof except as expressly permitted by the provisions of this Agreement.

5. Reservation and Availability of Common Stock; Taxes; Registration.

(a) The Company shall, at all times, reserve and keep available out of its authorized and unissued shares of Common Stock or out of any shares of Common Stock held in its treasury that number of shares of Common Stock that will from time to time be sufficient to permit the exercise in full of all Warrants that are or may be issued pursuant to this Agreement.

(b) The Company shall take all such action as may be necessary to ensure that all shares of Common Stock delivered upon the exercise of any Warrants shall, at the time of delivery of the certificates for such shares of Common Stock to the Transfer Agent and at all times thereafter, be duly authorized, validly issued, fully paid and non-assessable.

(c) The Company shall pay when due and payable any and all federal and state transfer taxes and charges (other than any applicable income taxes) that may be payable in respect of the issuance or delivery of Warrant Certificates or of certificates for shares of Common Stock receivable upon the exercise of any Warrants; *provided, however*, that the Company shall not be required to pay any tax that may be payable in respect of the issuance and delivery of any Warrant Certificate or stock certificate registered in a name other than that of the Holder of the Warrant Certificate that has been surrendered.

(d) RAC shall have the right, so long as it holds any Warrants or Warrant Shares, to demand that all Warrant Shares be duly registered under all applicable securities laws, including but not limited to the Securities Act of 1933, as amended (the "**1933 Act**") and to request that such registration remain effective until October 15, 2006. In the event that any such demand registration is made by RAC, the Company shall file within forty-five (45) days a registration statement with the Securities and Exchange Commission and diligently pursue and maintain the effectiveness of such registration statement for so long as RAC requests. RAC agrees to reimburse the Company, on a timely basis, for its pro rata share (based on the number of Warrant Shares being included in any such demand registration as compared to the total number of shares of Common Stock being included therein) of all reasonable out of pocket costs associated with any demand registration of such Common Stock as well as for the reasonable maintenance costs, if any, of such registration. In addition, if at any time the Company determines or is required to file a registration statement under the 1933 Act to register an offering of shares of Common Stock, the Company shall give to RAC at least thirty (30) days' prior

written notice of such filing. If, within fifteen (15) days after receipt of any such notice, RAC so requests in writing, the Company must include in such registration statement all of the Warrant Shares purchasable or purchased from time to time upon exercise of the Warrants that RAC requests to be so included. RAC agrees to reimburse the Company, on a timely basis, for all reasonable out of pocket costs associated with any demand registration of such Common Stock as well as for the reasonable maintenance costs, if any, of such registration.

6. Adjustments.

(a) General. The Exercise Price, the number of outstanding Warrants and the number and kind of stock or other securities or property purchasable upon exercise of a Warrant shall be subject to adjustment from time to time pursuant to the terms of this Section 6. For the avoidance of doubt and notwithstanding any provision contained in this Agreement to the contrary, the adjustments contained in this Section 6 shall apply to the Warrants that may be issued in the future in the same manner as if such Warrants had been issued on the date of this Agreement (also referred to as the “**Original Issue Date**”).

(b) Adjustment for Stock Splits and Combinations. If the Company, at any time or from time to time, after the Original Issue Date effects a subdivision of the outstanding Common Stock, the Exercise Price in effect immediately before that subdivision shall be proportionately decreased. If the Company, at any time or from time to time, after the Original Issue Date combines the outstanding shares of Common Stock, the Exercise Price in effect immediately before the combination shall be proportionately increased. Any adjustment in accordance with this Section 6(b) shall become effective at the close of business on the date that the related subdivision or combination becomes effective.

(c) Adjustment for Reorganization, Reclassification or Substitution. If the shares of Common Stock issuable upon exercise of the Warrants are changed into the same or a different number of shares of any class or classes of stock of the Company or other securities or property of the Company, whether by capital reorganization, reclassification or otherwise (other than a subdivision or combination of shares provided for above or a stock dividend, merger, consolidation, share exchange or sale of assets provided for below), then, from and after each such event, each Holder of a Warrant shall have the right to exercise such Warrant for the amount and kind of shares of stock and other securities and property receivable upon such reorganization, reclassification or other change by a holder of the number of shares of Common Stock for which such Warrant would have been exercisable immediately prior to such reorganization, reclassification or change, subject to further adjustment as provided herein.

(d) Adjustment for Merger, Consolidation, etc. In case of any merger, consolidation or share exchange of the Company with or into another person, a sale

of all or substantially all of the assets of the Company to another person or any other transaction involving the Company and another person having a similar effect (other than a subdivision or combination of shares or reorganization, reclassification or other transaction provided for above or a stock dividend provided for below), then, from and after each such event, each Holder of a Warrant shall have the right to exercise such Warrant for the amount and kind of shares of stock and other securities and property receivable upon such merger, consolidation, share exchange, sale or other transaction by a holder of the number of shares of Common Stock for which such Warrant would have been exercisable immediately prior to such merger, consolidation, share exchange, sale or other transaction, subject to further adjustment as provided herein. In each such case, prior to and as a condition to the consummation of any such transaction, appropriate adjustments (as determined in good faith by the Board of Directors of the Company) shall be made in the provisions of this Section 6 with respect to the rights and interests of the Holders of the Warrants, to the end that these provisions shall thereafter be applicable, in as equivalent a manner as reasonably can be achieved, in relation to any shares of stock, other securities or property thereafter deliverable upon exercise of the Warrants.

(e) Adjustment for Certain Dividends and Distributions. If the Company, at any time or from time to time, after the Original Issue Date makes or issues, or fixes a record date for the determination of holders of shares of Common Stock entitled to receive, a dividend or other distribution payable in additional shares of Common Stock, then, and in each such event, the Exercise Price in effect from and after the time of such issuance or, in the event such a record date has been fixed, the close of business on such record date shall be equal to the product of the Exercise Price in effect immediately prior to such time multiplied by a fraction:

(i) the numerator of which shall be the total number of shares of Common Stock issued and outstanding immediately prior to the time of such issuance or the close of business on such record date; and

(ii) the denominator of which shall be the total number of shares of Common Stock issued and outstanding immediately prior to the time of such issuance or the close of business on such record date, plus the number of shares of Common Stock issued or issuable in payment of such dividend or distribution; *provided, however*, that if such a record date has been fixed and such dividend is not fully paid or such distribution is not fully made on the date set therefor, then the Exercise Price then in effect shall be appropriately recalculated as of the close of business on such record date.

(f) Adjustments for Other Dividends and Distributions. If the Company, at any time or from time to time, after the Original Issue Date makes or issues, or fixes a record date for the determination of holders of shares of Common Stock entitled to receive, a dividend or other distribution payable in securities of the

Company or any subsidiary of the Company other than shares of Common Stock, then, and in each such event, appropriate provision shall be made so that each Holder of a Warrant exercised after such issuance or such record date, as the case may be, shall receive, in addition to the shares of Common Stock otherwise receivable upon such exercise, the amount of securities and other property, if any, that would have been received by such Holder had such Warrant been exercised immediately prior to such issuance or the close of business on such record date and the securities received upon such exercise been retained from the date of such issuance or such record date to and including the actual exercise date of such Warrant.

(g) Adjustment in Number of Warrants. When any adjustment is required to be made in the Exercise Price pursuant to this Section 6, then the number of outstanding Warrants shall be simultaneously adjusted to equal the number determined by dividing (i) the product of the number of Warrants outstanding immediately prior to such adjustment multiplied by the Exercise Price in effect immediately prior to such adjustment, by (ii) the Exercise Price in effect immediately after such adjustment.

(h) Certificate as to Adjustment. Upon the occurrence of any event that results or will result in an adjustment of the Exercise Price pursuant to this Section 6, the Company shall promptly compute such adjustment in accordance with the terms of this Section 6 and furnish to each Holder of a Warrant a certificate setting forth such adjustment and the related adjustment in the number of outstanding Warrants and describing in reasonable detail the facts upon which such adjustments are based. The Company shall, upon the written request at any time of any Holder of a Warrant, furnish or cause to be furnished to such Holder a certificate setting forth (i) all such adjustments since the Original Issue Date, (ii) the Exercise Price then in effect, and (iii) the number of shares of Common Stock and the amount, if any, of other securities or property that would then be receivable upon exercise of a Warrant.

7. Fractional Shares.

(a) The Company shall not be required to issue fractional shares of Common Stock upon the exercise of any Warrants or to distribute certificates that evidence fractional shares of Common Stock. In lieu of issuing a fractional share of Common Stock, the Company shall pay to the Holder of any Warrants at the time such Warrants are exercised an amount in cash equal to the same fraction of the current market value of one share of Common Stock on the date that such Warrants are exercised.

(b) For purposes hereof, the current market value of a share of Common Stock (or any other security) shall be the closing price per share of Common Stock (or the standard unit for such other security) on the date of determination. Such closing price shall be:

(i) the last sale price, regular way, or, in case no such sale takes place, the average of the closing bid and asked prices on the date of determination, in either case as reported in the principal consolidated transaction reporting system with respect to securities listed or admitted to trading on the New York Stock Exchange; or

(ii) if the Common Stock (or such other class or series of securities) is not listed or admitted to trading on the New York Stock Exchange, the last sale price, regular way, or, in case no such sale takes place, the average of the closing bid and asked prices on such day, in either case as reported in the principal consolidated transaction reporting system with respect to securities listed or admitted to trading on the principal national securities exchange on which the Common Stock (or such other class or series of securities) is listed or admitted to trading; or

(iii) if the Common Stock (or such other class or series of securities) is not listed or admitted to trading on any national securities exchange, the last quoted sale price or, if not so quoted, the average of the high bid and low asked prices on such day in the over-the-counter market, as reported by the National Association of Securities Dealers, Inc. Automated Quotations System or such other system then in use by such organization; or

(iv) if the Common Stock (or such other class or series of securities) is not listed or admitted to trading on any national securities exchange and prices therefor are not reported by such organization, the average of the closing bid and asked prices as furnished by a professional market maker making a market in the Common Stock (or such other class or series of securities) selected by the Board; or

(v) if the Common Stock (or such other class or series of securities) is not so listed or admitted to trading and prices therefor are not so reported or quoted, the fair market value per share (or other appropriate unit) as determined in good faith by the Board, whose determination shall be conclusive and binding on all Holders of Warrants.

8. Agreement of Warrant Holders and RAC. In the event that any Warrant Options are exercised and any Warrants are issued in accordance with Section 1 of this Agreement, every Holder of a Warrant, by accepting the same, acknowledges and agrees with the Company and with every other Holder of a Warrant that:

(a) Each Warrant is transferable only by the transfer of the Warrant Certificate that evidences such Warrant upon the registry books of the Transfer Agent which shall be accomplished by surrendering such Warrant Certificate for transfer at the Transfer Agent's principal office, duly endorsed or accompanied by a proper instrument of transfer; and

(b) The Transfer Agent may deem and treat the person in whose name a Warrant Certificate is registered as the absolute owner thereof and of the Warrants evidenced thereby for all purposes whatsoever, notwithstanding any notations of ownership or writing on such Warrant Certificate made by anyone other than the Company or the Transfer Agent or any other notice to the contrary.

In addition to the above Clauses (a) and (b) of this Section 8, but in no way limiting the free transferability of the Warrants except as described in this Section 8, and in the event that any Warrant Options are exercised and any Warrants are issued in accordance with Section 1 of this Agreement, RAC or its permitted transferees, as a Holder of a Warrant, by accepting the same, acknowledges and agrees that it shall not, without the prior written consent of the Company, assign or transfer less than 13,000 Warrants to any single entity or person. Furthermore, RAC also acknowledges and agrees that it shall not, nor shall any transferee of any Warrant Certificate, without the prior written approval of the Company, assign or transfer any Warrant or portion thereof to any entity or person engaged in the United States regional airline business when such person or entity could reasonably be considered a competitor of the Company.

9. Warrant Certificate Holder Not Deemed a Stockholder. No Holder of any Warrant, as such, shall be entitled to vote or receive dividends or shall be deemed for any other purpose the holder of the shares of Common Stock or other securities which may at any time be issuable upon the exercise of such Warrant. Nothing contained herein or in any Warrant Certificate shall be construed to confer upon the Holder of any Warrant, as such, any of the rights of a stockholder of the Company, including any right to vote for the election of directors or upon any other matter submitted to stockholders of the Company at any meeting thereof, to give or withhold consent to any corporate action, or to receive notice of meetings or other

actions affecting stockholders, except as otherwise expressly provided herein or therein or until such Warrant has been exercised in accordance with the provisions hereof and thereof.

10. Issuance of New Warrant Certificates. Notwithstanding anything to the contrary set forth herein or in the Warrant Certificates, the Company may, at its option, issue new Warrant Certificates evidencing the Warrants, in such form as may be approved by the Board, to reflect any adjustment or change in the Exercise Price and the number or kind of stock or other securities or property purchasable upon exercise of the Warrants.

11. Capitalized Terms. Capitalized terms used and not otherwise defined herein shall have the meanings assigned to them in the Settlement Agreement.

12. Successors and Assigns. The terms of this Agreement shall be binding upon the Company and RAC and their respective permitted successors and assigns.

13. No Third Party Beneficiaries. Nothing in this Agreement, express or implied, is intended to confer upon any third party any rights, remedies, obligations, or liabilities under or by reason of this Agreement, except as expressly provided herein.

14. Integration. This Agreement, the Settlement Agreement and the Warrant Certificates represent the entire agreement of the Company and RAC with respect to the subject matter hereof and thereof, and there are no promises, undertakings, representations or warranties by either relative to the subject matter hereof and thereof not expressly set forth or referred to herein, in the Settlement Agreement or in the Warrant Certificates.

15. Governing Law; Consent to Jurisdiction.

THIS AGREEMENT IS A CONTRACT UNDER THE LAWS OF THE STATE OF KANSAS AND SHALL FOR ALL PURPOSES BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF KANSAS (EXCLUDING THE LAWS APPLICABLE TO CONFLICTS OR CHOICE OF LAW). EACH OF THE PARTIES HERETO AGREES THAT ANY SUIT FOR THE ENFORCEMENT OF THIS AGREEMENT OR ANY OF THE OTHER CURRENT TRANSACTION DOCUMENTS SHALL BE BROUGHT EXCLUSIVELY IN EITHER THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF KANSAS AT WICHITA, KANSAS, OR IN THE EIGHTEENTH JUDICIAL DISTRICT COURT OF SEDGWICK COUNTY, KANSAS, TO THE EXCLUSION OF ALL OTHER COURTS AND TRIBUNALS. EACH OF THE PARTIES HEREBY CONSENTS AND AGREES TO BE SUBJECT TO THE JURISDICTION OF THE AFORESAID COURTS IN SUCH PROCEEDINGS AND HEREBY WAIVES ANY OBJECTION THAT IT MAY NOW

OR HEREAFTER HAVE TO THE VENUE OF ANY SUCH SUIT OR ANY SUCH COURT OR THAT SUCH SUIT IS BROUGHT IN AN INCONVENIENT COURT.

16. Notices. Any notice or correspondence required to be sent hereunder shall be in writing and shall be delivered by hand, sent by nationally recognized overnight courier or sent by facsimile and confirmed by delivery via overnight courier, addressed as follows (or to such other or further addresses as the parties may hereafter designate by like notice similarly sent):
