
UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
Form 10-Q

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the quarterly period-ended June 30, 2007
- or
- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

Commission File Number 0-15495

Mesa Air Group, Inc.
(Exact name of registrant as specified in its charter)

Nevada
*(State or other jurisdiction of
incorporation or organization)*

410 North 44th Street, Suite 100,
Phoenix, Arizona
(Address of principal executive offices)

85-0302351
*(I.R.S. Employer
Identification No.)*

85008
(Zip code)

Registrant's telephone number, including area code:
(602) 685-4000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the last 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

On August 3, 2007, the registrant had outstanding 28,729,685 shares of Common Stock.

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**1. Business and Basis of Presentation**

The accompanying unaudited, condensed consolidated financial statements of Mesa Air Group, Inc. ("Mesa" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for a complete set of financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the results for the periods presented have been made. Operating results for the three and nine month periods ended June 30, 2007, are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2007. These condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2006.

The accompanying condensed consolidated financial statements include the accounts of Mesa Air Group, Inc. and its wholly-owned operating subsidiaries: Mesa Airlines, Inc. ("Mesa Airlines"), a Nevada corporation and certificated air carrier; Freedom Airlines, Inc. ("Freedom"), a Nevada corporation and certificated air carrier; Air Midwest, Inc. ("Air Midwest"), a Kansas corporation and certificated air carrier; Air Midwest, LLC, a Nevada Limited Liability Company, MPD, Inc., a Nevada corporation, doing business as Mesa Pilot Development; Regional Aircraft Services, Inc. ("RAS") a California company; Mesa Air Group — Airline Inventory Management, LLC ("MAG-AIM"), an Arizona Limited Liability Company; Ritz Hotel Management Corp., a Nevada Corporation; Nilchii, Inc. ("Nilchii"), a Nevada corporation, Patar, Inc. ("Patar"), a Nevada corporation, Ping Shan, SRL ("Ping Shan"), a Barbados, West Indies based investment company, and MAGI Insurance, Ltd. ("MAGI"), a Barbados, West Indies based captive insurance company. Air Midwest, LLC was formed for the purpose of a contemplated conversion of Air Midwest from a corporation to a limited liability company (which has not yet occurred). MPD, Inc. provides pilot training in coordination with San Juan College in Farmington, New Mexico and with Arizona State University in Tempe, Arizona. RAS performs aircraft component repair and overhaul services. MAG-AIM purchases, distributes and manages the Company's inventory of rotatable and expendable spare parts. Ritz Hotel Management is a Phoenix area hotel property that is used for crew-in-training accommodations. MAGI is a captive insurance company established for the purpose of obtaining more favorable aircraft liability insurance rates. Ping Shan was established to invest in a Joint Venture in the People's Republic of China. Nilchii was established to invest in certain airline related businesses. Patar was established to invest in certain non-aviation related businesses. All significant intercompany accounts and transactions have been eliminated in consolidation.

New Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board ("FASB") ratified Emerging Issues Task Force Issue No. 06-3 ("EITF 06-3"), "How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)." EITF 06-3 applies to any tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction between a seller and a customer. EITF 06-3 allows companies to present taxes either gross within revenue and expense or net. If taxes subject to this issue are significant, a company is required to disclose its accounting policy for presenting taxes and the amount of such taxes that are recognized on a gross basis. The Company adopted EITF 06-3 during the second quarter of 2007 by continuing to present such taxes on a net basis. These amounts are not material to the Company's consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements." This standard defines fair value, establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America, and expands disclosure about fair value measurements. This pronouncement applies to other accounting standards that require or permit fair value

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

measurements. Accordingly, this statement does not require any new fair value measurement. This statement is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will be required to adopt SFAS No. 157 in the first quarter of fiscal year 2009. Management has not yet determined the impact of adopting this statement.

In September, 2006, the FASB issued FASB Staff Position (“FSP”) No. AUG AIR-1 “Accounting for Planned Major Maintenance Activities.” This position amends the existing major maintenance accounting guidance contained within the AICPA Industry Audit Guide “Audits of Airlines” and prohibits the use of the accrue in advance method of accounting for planned major maintenance activities for owned aircraft. The provisions of the announcement are applicable for fiscal years beginning after December 15, 2006. Mesa currently uses the direct expense method of accounting for planned major maintenance; therefore, the adoption of FSP No. AUG AIR-1 will not have an impact on the Company’s consolidated financial statements.

In June 2006, the FASB issued Interpretation No. 48, “Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109” (“FIN 48”), which clarifies the accounting for uncertainty in income taxes recognized in financial statements. FIN 48 requires the impact of a tax position to be recognized in the financial statements if that position is more likely than not of being sustained by the taxing authority. Mesa will be required to adopt FIN 48 in the first quarter of fiscal year 2008. Management has not yet determined the impact on the Company’s consolidated financial statements.

2. Segment Reporting

FASB No. 131, “Disclosures about Segments of an Enterprise and Related Information,” requires disclosures related to components of a company for which separate financial information is available that is evaluated regularly by a company’s chief operating decision maker in deciding the allocation of resources and assessing performance. The Company has three airline operating subsidiaries, Mesa Airlines, Freedom Airlines and Air Midwest, as well as various other subsidiaries organized to provide support for the Company’s airline operations. The Company has aggregated these subsidiaries into three reportable segments: Mesa Airlines/Freedom, Air Midwest/*go!* and Other. Operating revenues in the Other segment are primarily sales of rotatable and expendable parts to the Company’s operating subsidiaries and ground handling services performed by employees of RAS for Mesa Airlines.

Mesa Airlines and Freedom Airlines provide passenger service under revenue-guarantee contracts with United Airlines, Inc. (“United”), Delta Air Lines, Inc. (“Delta”) and US Airways, Inc. (“US Airways”). As of June 30, 2007, Mesa Airlines and Freedom Airlines operated a fleet of 171 aircraft — 50 CRJ 200s, 20 CRJ 700s, 38 CRJ 900s, 36 ERJ 120s and 27 Dash-8’s.

Air Midwest and Mesa Airlines, operating as *go!*, provide passenger service where revenue is derived from ticket sales either independently or through pro-rate agreements. Air Midwest provides passenger service under pro-rate contracts with US Airways, and Midwest Airlines, as well as independently under the brand name Mesa Airlines. As of June 30, 2007, Air Midwest operated a fleet of 20 Beechcraft 1900D turboprop aircraft. Mesa Airlines, operating as *go!*, provides independent inter-island Hawaiian passenger service. As of June 30, 2007, Mesa’s *go!* operation operated a fleet of 5 CRJ-200 aircraft, and we are preparing 3 CRJ-200 aircraft for sublease to the Chinese joint venture. Air Midwest and Mesa, operating as *go!*, do not receive contractually-guaranteed revenue for their operations. Air Midwest LLC will be included in Air Midwest/*go!* when the contemplated conversion to a limited liability company occurs.

The Other reportable segment includes Mesa Air Group (the holding company), RAS, MPD, MAG-AIM, MAGI, Shan Yue, Ping Shan, Nilchii, Patar, and Ritz Hotel Management Corp. Activity in the Other category consists primarily of sales of rotatable and expendable parts and ground handling services to the Company’s operating subsidiaries, but also includes all administrative functions not directly attributable to any specific operating company. These administrative costs are allocated to the operating companies based upon specific criteria including headcount, available seat miles (“ASM’s”) and other operating statistics.

3. Marketable Securities

The Company has a cash management program which provides for the investment of excess cash balances primarily in short-term money market instruments, US Treasury securities, intermediate-term debt instruments, and common equity securities of companies operating in the airline industry.

SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," requires that all applicable investments be classified as trading securities, available for sale securities or held-to-maturity securities. The Company currently has \$140.4 million in marketable securities that include US Treasury notes, government bonds and corporate bonds. These investments are classified as trading securities during the periods presented and accordingly, are carried at market value with changes in value reflected in the current period operations. Unrealized losses relating to trading securities held at June 30, 2007 and September 30, 2006, were (\$3.8) million and (\$0.3) million, respectively.

The Company has determined that investments in auction rate securities ("ARS") should be classified as short-term investments. ARS generally have long-term maturities; however, these investments have characteristics similar to short-term investments because at predetermined intervals, generally every 28 days, there is a new auction process. As such, the Company classifies ARS as short-term investments. The balance of marketable securities at June 30, 2007 and September 30, 2006 includes investments in ARS of \$0 and \$17.4 million, respectively.

4. Restricted Cash

At June 30, 2007, the Company had \$12.2 million in restricted cash on deposit with two financial institutions. In September 2004, the Company entered into an agreement with a financial institution for a \$15.0 million letter of credit facility and to issue letters of credit for landing fees, workers' compensation insurance and other business needs. Pursuant to the agreement and amounts held on deposit, the Company had \$11.4 million of outstanding letters of credit at June 30, 2007. The Company also maintains \$5.0 million on deposit with another financial institution to collateralize its direct deposit payroll obligations.

5. Concentrations

The Company has code-share agreements with Delta Air Lines, US Airways and United Airlines. Approximately 98% of the Company's consolidated passenger revenue for the three month period ended June 30, 2007 was derived from these agreements. Accounts receivable from the Company's code-share partners were 40% and 45% of total gross accounts receivable at June 30, 2007 and September 30, 2006, respectively.

US Airways accounted for approximately 45% of the Company's total passenger revenue in the three month period ended June 30, 2007. A termination of the US Airways revenue-guarantee code-share agreements would

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

have a material adverse effect on the Company's business prospects, financial condition, results of operations and cash flows.

United Airlines accounted for approximately 35% of the Company's total passenger revenue in the three month period ended June 30, 2007. A termination of the United agreement would have a material adverse effect on the Company's business prospects, financial condition, results of operations and cash flows.

Delta Air Lines accounted for approximately 18% of the Company's total passenger revenue in the three month period ended June 30, 2007. A termination of the Delta agreement would have a material adverse effect on the Company's business prospects, financial condition, results of operations and cash flows.

The Company is currently engaged in a dispute with US Airways over fees payable pursuant to its Code Share and Revenue Sharing Agreement (the "Code Share Agreement"). The disagreement stems from payments due the Company from US Airways with respect to reimbursable operating costs and expenses relating to certain of the Company's CRJ-900 aircraft. The disputed amount that has not been paid by US Airways as of June 30, 2007 is \$7.2 million and increases by \$0.2 million per month during the term of the Code Share Agreement that the dispute remains unresolved. The Company believes that these reimbursable costs and expenses are in accordance with the terms and conditions of the Code Share Agreement and are immediately due and payable. This \$7.2 million receivable is part of a total receivable from US Airways of \$16.7 million at June 30, 2007.

Subsequent to June 30, 2007, the Company reached a tentative settlement with respect to its dispute with US Airways. In settlement of all outstanding disputes between the two parties through July 2007, US Airways has agreed to pay the Company a lump sum of \$7,464,000 plus agreed upon monthly amounts per aircraft for the period commencing in August 2007 through the balance of the contract. This payment was received from US Airways on August 9, 2007. Such terms are subject to the execution of an amendment to the Code Share Agreement in form and substance acceptable to the parties.

6. Contract Incentives

In May 2005, the Company amended its code-sharing arrangement with United to allow the Company to put up to an additional 30 50-seat regional jet aircraft into the United Express system. The agreement with respect to the additional 30 50-seat regional jet aircraft expires in April 2010. Additionally, the expiration dates under the existing code-share agreement with respect to certain aircraft were extended. In connection with the amendment, the Company made three \$10 million payments to United prior to fiscal 2007. Amounts paid were recorded as a deferred charge and included in other assets on the balance sheet. The deferred charge was then being amortized over the term of the code-share agreement as a reduction of passenger revenue. The unamortized balance of these deferred charges were written off in the second quarter of 2007. See Note 14 regarding impairment.

7. Deferred Credits

Deferred credits consist of aircraft purchase incentives provided by the aircraft manufacturers and deferred gains on the sale and leaseback of interim financed aircraft. These incentives include credits that may be used to purchase spare parts, pay for training expenses or reduce other aircraft operating costs. These deferred credits and gains are amortized on a straight-line basis as a reduction of lease expense over the term of the respective leases. In addition, during the third quarter of 2007 the Company received shares of Delta stock as part of the Delta bankruptcy settlement. These shares were recorded at the fair market on the date of receipt and the deferred gain of \$16.3 million is being amortized over the remaining life of the Delta contract as these amounts are viewed as a piece of the ongoing Delta contract taken as a whole.

8. Short-Term Debt

At September 30, 2006, the Company had \$123.1 million in notes payable to an aircraft manufacturer for five aircraft on interim financing. During the second quarter of 2007, the Company permanently financed these five

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

aircraft as well as a sixth aircraft delivered during the first quarter of 2007 with \$135.4 million in long-term debt. Under interim financing arrangements, the Company takes delivery and title to the aircraft prior to securing permanent financing and the acquisition of the aircraft is accounted for as a purchase with debt financing. Accordingly, the Company reflects the aircraft and debt under interim financing on its balance sheet during the interim financing period. After taking delivery of the aircraft, it is the Company's intention to permanently finance the aircraft as an operating lease through a sale and leaseback transaction with an independent third-party lessor. During the third quarter of 2007 the outstanding interim financing was converted from interim financing to permanent financing. Upon permanent financing, the proceeds were used to retire the outstanding notes payable to the manufacturer. The current interim financing agreement with the manufacturer provides for the Company to have a maximum of 15 aircraft on interim financing at a given time.

9. Notes Payable and Long-Term Debt

Long-term debt consisted of the following:

	June 30, 2007	September 30, 2006
	(In thousands)	
Notes payable to bank, collateralized by the underlying aircraft, due 2019	\$ 314,658	\$ 329,478
Senior convertible notes due June 2023	37,834	37,834
Senior convertible notes due February 2024	100,000	100,000
Notes payable to manufacturer, principal and interest due monthly through 2011, interest at LIBOR plus 1.8% (7.12% at June 30, 2007), collateralized by the underlying aircraft	74,428	79,290
Note payable to financial institution due 2013, principal and interest due monthly at 7% per annum through 2008 converting to 12.5% thereafter, collateralized by the underlying aircraft	21,755	22,831
Notes payable to financial institution, principal and interest due monthly through 2022, interest at LIBOR plus 2.25% (7.57% at June 30, 2007), collateralized by the underlying aircraft	118,792	—
Notes payable to financial institution, principal and interest due monthly through 2012, interest at 8.3% per annum, collateralized by the underlying aircraft	14,547	—
Note payable to manufacturer, principal due semi-annually, interest at 7% due quarterly through 2007	—	1,792
Mortgage note payable to bank, principal and interest at 7.5% due monthly through 2009	849	882
Other	128	121
Total debt	682,991	572,228
Less current portion	(35,486)	(29,659)
Long-term debt	<u>\$ 647,505</u>	<u>\$ 542,569</u>

10. Earnings Per Share

The Company accounts for earnings per share in accordance with SFAS No. 128, "Earnings per Share." Basic net income per share is computed by dividing net income by the weighted average number of common shares outstanding during the periods presented. Diluted net income per share reflects the potential dilution that could occur if outstanding stock options and warrants were exercised. In addition, dilutive convertible securities are

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

included in the denominator while interest on convertible debt, net of tax, is added back to the numerator. A reconciliation of the numerator and denominator used in computing net income (loss) per share is as follows:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2007	2006	2007	2006
	(In thousands)		(In thousands)	
Share calculation:				
Weighted average shares — basic	30,063	36,020	31,857	32,980
Effect of dilutive outstanding stock options and warrants	284	708	—	1,017
Effect of restricted stock	201	29	—	9
Effect of dilutive outstanding convertible debt	6,920	10,704	—	10,704
Weighted average shares — diluted	37,468	47,461	31,857	44,710
Adjustments to net income (loss):				
Net income (loss)	\$ 2,604	\$ 10,929	\$ (13,369)	\$ 29,209
Interest expense on convertible debt, net of tax	548	900	—	3,428
Adjusted net income (loss)	\$ 3,152	\$ 11,829	\$ (13,369)	\$ 32,637

The effect of converting the 3.625% senior convertible note securities into 3.8 million shares of common stock in the three months ended June 30, 2007 would have been antidilutive to the per share calculation and therefore were not included in the numerator or denominator for the three months ended June 30, 2007. The 6.25% senior convertible securities were dilutive during the current quarter and therefore were included in the denominator and the associated interest, net of tax was added back to the numerator. For the nine months ended June 30, 2007 all senior convertible notes were excluded from the earnings per share calculation because they were antidilutive.

Options to purchase 3,631,239 shares of common stock were outstanding at June 30, 2007. Options to purchase 2,248,037 and 1,966,437 shares of common stock were excluded from the calculation of diluted earnings per share for the three and nine month periods ended June 30, 2007, respectively, because the options' exercise prices were greater than the average market price of the common shares and, therefore, the effect would have been antidilutive. All options outstanding for the nine months ended June 30, 2007 were antidilutive because the Company incurred a net loss during the period.

11. Stock Repurchase Program

The Company's Board of Directors have authorized the Company to purchase up to 29.4 million shares of the Company's outstanding common stock. As of June 30, 2007, the Company has acquired and retired approximately 15.9 million shares of its outstanding common stock at an aggregate cost of approximately \$106.8 million, leaving approximately 13.5 million shares available for purchase under the current Board authorizations. Purchases are made at management's discretion based on market conditions and the Company's financial resources.

The Company repurchased the following shares for \$15.3 million during the three months ended June 30, 2007:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares That May yet be Purchased Under the Plan
Three months ended June 30, 2007	2,248,246	\$ 6.79	15,901,185	13,521,076
Nine months ended June 30, 2007	5,470,645	\$ 7.33	15,901,185	13,521,076

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

12. Beechcraft 1900D Cost Reductions

In February 2002, the Company entered into an agreement with Raytheon Aircraft Company (the "Raytheon Agreement") to, among other things, reduce the operating costs of the Company's Beechcraft 1900D fleet. In connection with the Raytheon Agreement and subject to the terms and conditions contained therein, Raytheon agreed to provide up to \$5.5 million in annual operating subsidy payments to the Company contingent upon the Company remaining current on its payment obligations to Raytheon. The amount was subsequently reduced to \$5.3 million as a result of a reduction in the Company's fleet of B1900D aircraft. Approximately \$1.3 million was recorded as a reduction to expense during the three months ended June 30, 2007 and 2006. In return, the Company granted Raytheon a warrant to purchase up to 233,068 shares of the Company's common stock at a per share exercise price of \$10. The Company recorded the issuance of the warrant at a value of \$0.4 million within stockholders' equity as a debit and credit to common stock. The contra equity value of the warrant was amortized to expense over the vesting period of three years. Raytheon must pay a purchase price of \$1.50 per common share underlying the warrant. The warrant was exercisable at any time over a three-year period following its date of purchase. Raytheon is completely vested in the 233,068 shares of common stock underlying the warrant.

13. Bankruptcy Settlement

During the nine months ended June 30, 2007, the Company received approximately 48,000 shares of US Airways common stock from its bankruptcy claim against US Airways, Inc. prior to its merger with America West ("Pre-Merger US Airways"). The Company sold the stock and realized proceeds of \$2.4 million. In connection with an amendment to and assumption of our existing Delta Connection Agreement, we received a general unsecured claim of \$35.0 million as part of Delta's bankruptcy proceeding. During the third quarter of 2007 the Company received shares of Delta stock as part of the Delta bankruptcy settlement. These shares were recorded at the fair market value on the date of receipt and the resulting deferred gain of \$16.3 million is being amortized over the remaining life of the Delta contract as these amounts are viewed as a piece of the ongoing Delta contract taken as a whole.

14. Impairment of Long-Lived Assets

In accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company continually considers events or changes in circumstances that indicate the carrying amount of a long-term asset may not be recoverable. During the second quarter of 2007 the Company evaluated two such cases. In each instance the gross undiscounted cash flows related to a long-term asset were computed and found to be less than the carrying value of the long-lived asset. The fair market value of the two assets was then determined and an impairment charge, equal to the excess of the carrying value over fair value, was recorded totaling \$37.7 million during the second quarter.

The first impairment charge, totaling \$31.7 million, related to the unamortized balance of a \$30.0 million nonrefundable cash incentive ("Incentive") paid to United prior to fiscal 2007, upon amending our code-share agreement with United (the "Amendment") and leasehold improvements relating to certain aircraft operating under the United code-share agreement. The Amendment primarily allowed us to place 30 additional aircraft with United, bringing the total aircraft under the United code share agreement to 70 and to extend the expiration dates under the existing code-share agreement with respect to certain of the other aircraft. The incentive was included in other assets and was being amortized as a reduction to revenue over the term of the amended code share agreement. Beginning with the second quarter of fiscal 2006 we began experiencing declining margins related to this code-share and management initiated an operational analysis in the fourth quarter of fiscal 2006, which was completed in the second quarter of fiscal 2007. During the second quarter of fiscal 2007 the margins deteriorated further, resulting in management concluding that the Company will incur operating losses over the remaining term of the amended code-share agreement. The analysis determined that these losses were due primarily to increases in (1) maintenance costs from certain contractual increases in maintenance support agreements that went into effect in the second

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

quarter of fiscal 2007; (2) lower total completion factors primarily attributable to the locations from which we operate the additional 30 aircraft added in the amended code-share agreement, resulting in higher operational costs and higher labor costs resulting from employee turnover and; (3) other underlying costs increasing at greater rates than we had originally anticipated when we entered into the amended code-share agreement. In order to determine whether or not this asset was impaired, we estimated the future gross undiscounted cash flows related to this code-share agreement and found them to be less than the asset's unamortized balance. The fair value of the asset was determined to be zero. Accordingly, an impairment charge was taken for \$25.3 million during the second quarter. We expect the negative cash flows experienced in the second and third quarter of fiscal 2007 from this code-share agreement to continue at this level and could worsen in the future. The largest single item affecting the cash flows from this code-share agreement are the 30 incremental 50-seat regional jets the Company added in early fiscal 2006. In addition, leasehold improvements related to certain aircraft under the United code-share agreement were evaluated for recoverability and were determined to be impaired and accordingly an impairment charge was taken for \$6.4 million during the second quarter. Management is evaluating various alternatives to address the situation, however there can be no assurance that we will be successful in our efforts.

The second impairment charge taken during the second quarter, totaling \$6.0 million related to the unamortized balance of leasehold improvements for 12 Dash 8-100 aircraft operating under one of our Delta code share agreements. During the second quarter of fiscal 2007, Delta exercised its right to reduce the number of aircraft in the code share agreement by notifying the Company of its intention to remove all 12 aircraft from service by September 2007. In order to determine whether or not this asset was impaired, the Company estimated the future gross undiscounted cash flows related to these aircraft and found them to be less than the leasehold improvements' unamortized balance. Accordingly, an impairment charge of \$6.0 million was taken during the second quarter. The Company expects the negative cash flows experienced during the second and third quarter of fiscal 2007 from this code-share agreement to continue into the fourth quarter of fiscal 2007 when the aircraft are removed from service with Delta. At this time, unless alternative uses can be found for the aircraft, the Company anticipates that it will continue to incur the respective aircrafts' lease costs until the aircraft are scheduled to be returned to their respective lessors in the first and second quarters of fiscal 2008. In addition to the negative operational cash flows, the Company expects to incur additional costs for early termination with the respective lessors. These costs will be recognized when the aircraft are no longer in service. During the third quarter of 2007, three such aircraft were taken off line and a \$2.2 million charge was taken. Management is evaluating various alternative uses for the aircraft, including additional flying or subleasing the aircraft to other lessors, however there can be no assurance that the Company will be successful in efforts.

15. Equity Method Investment

In fiscal 2006, the Company participated with a private equity fund in making an investment in the common stock and notes of a closely held airline related business (the "Investee"). The Company, through its subsidiary Nilchii, invested \$15.0 million, which represents approximately 23% and 13% of the Investee's common stock and notes, respectively.

The Company accounts for its investment using the equity method of accounting. Under the equity method, the Company adjusts the carrying amount of its investment for its share of the earnings or losses of the Investee subsequent to the date of investment and reports the recognized earnings or losses in income from operations. The Company's share of the Investee's losses subsequent to the date of investment has exceeded the carrying value of the common stock investment, which has been reduced to zero. In accordance with EITF Issue No. 99-10, "Percentage Used to Determine the Amount of Equity Method Losses," the Company recognized equity method losses based on the ownership level of the Investee common stock held by the Company until the carrying value of its investment in the common stock was reduced to zero, then by the ownership level of the Investee notes held by the Company. During the third quarter of fiscal 2007, the Company recorded equity method gains from this investment of \$0.3 million bringing the fiscal 2007 year-to-date equity method loss recognized to \$3.3 million.

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Investee notes held by the Company bear interest at 17%. At June 30, 2007, the Company has a receivable for and has recorded interest income related to these notes in the amount of \$2.5 million.

During the second quarter of fiscal 2007 we placed \$1.3 million on deposit pursuant to a subscription agreement in a limited partnership. Upon closing, the Company will account for this investment using the equity method of accounting.

16. Stock-Based Compensation

Stock based compensation expense is calculated by estimating the fair value of stock options at the time of grant and amortized over the stock options' vesting period.

The following amounts were recognized for stock-based compensation (in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2007	2006	2007	2006
	(In thousands)			
General and administrative expenses:				
Stock options expense	\$ 217	\$ 401	\$ 880	\$ 1,851
Restricted stock expense	217	294	924	883
Total	<u>\$ 434</u>	<u>\$ 695</u>	<u>\$ 1,804</u>	<u>\$ 2,734</u>

17. Commitments and Contingencies

As of June 30, 2007, the Company had firm orders with Bombardier Aerospace, Inc. for ten CRJ-700 aircraft, with an option for an eleventh. In conjunction with this purchase agreement, Mesa had \$12.0 million on deposit with Bombardier Regional Aircraft Division that is included in lease and equipment deposits at June 30, 2007. The remaining deposits are expected to be returned pro rata upon completion of permanent financing on each of the ten aircraft.

The Company accrues for potential income tax contingencies when it is probable that a liability has been incurred and the amount of the contingency can be reasonably estimated. The Company's accrual for income tax contingencies is adjusted for changes in circumstances and additional uncertainties, such as amendments to existing tax law, both legislated and concluded through the various jurisdictions' tax court systems. At June 30, 2007, the Company had an accrual for income tax contingencies of approximately \$2.9 million. If the amounts ultimately settled are greater than the accrued contingencies, the Company would record additional income tax expense in the period in which the assessment is determined. To the extent amounts are ultimately settled for less than the accrued contingencies, or the Company determines that a liability is no longer probable, the liability is reversed as a reduction of income tax expense in the period the determination is made.

The Company also has long-term contracts for the performance of engine maintenance and rotatable spare parts. A description of each of these contracts is as follows:

During the second quarter of fiscal 2007, the Company entered into a memorandum of understanding ("MOU") with Delta's Technical Operations division ("DTO") for its previously uncovered General Electric Aircraft Engines ("GE") engines. The MOU requires a monthly payment based upon the prior month's flight hours incurred by the covered engines. The hourly rate increases over time based upon the engine overhaul costs that are expected to be incurred in that year and is subject to escalation based on changes in certain price indices. Maintenance expense is recognized based upon the product of flight hours flown and the rate in effect for the period.

In January 1997, the Company entered into a 10-year engine maintenance contract with GE for certain of its CRJ-200 aircraft engines. The agreement was subsequently amended in the first quarter of fiscal 2003 and third

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

quarter of fiscal 2007. The amended contract requires a monthly payment based upon the prior month's flight hours incurred by the covered engines. The hourly rate increases over time based upon the engine overhaul costs that are expected to be incurred in that year and is subject to escalation based on changes in certain price indices. Maintenance expense is recognized based upon the product of flight hours flown and the rate in effect for the period. The contract also provides for a fixed number of engine overhauls per year. To the extent that the number of actual overhauls is less than the fixed number, GE is required to issue to Mesa a credit for the number of events less than the fixed number multiplied by an agreed upon price. To the extent that the number of actual overhauls is greater than the fixed number, Mesa is required to pay GE for the number of events greater than the fixed number multiplied by the same agreed upon price. Any adjustment payments or credits are recognized in the period they occur.

In April 1997, the Company entered into a 10-year engine maintenance contract with Pratt & Whitney Canada Corp. ("PWC") for its Dash-8 aircraft. The contract requires Mesa to pay PWC for the engine overhaul upon completion of the maintenance based upon a fixed dollar amount per flight hour. The rate under the contract is subject to escalation based on changes in certain price indices.

In April 2000, the Company entered into a 10-year engine maintenance contract with Rolls-Royce Allison ("Rolls-Royce") for its ERJ aircraft. The contract requires Mesa to pay Rolls-Royce for the engine overhaul upon completion of the maintenance based upon a fixed dollar amount per flight hour. The rate per flight hour is based upon certain operational assumptions and may vary if the engines are operated differently than these assumptions. The rate is also subject to escalation based on changes in certain price indices. The agreement with Rolls-Royce also contains a termination clause and look back provision to provide for any shortfall between the cost of maintenance incurred by the provider and the amount paid up to the termination date by the Company and includes a 15% penalty on such amount. The Company does not anticipate an early termination under the contract.

In May 2002, the Company entered into a six-year fleet management program with PWC to provide maintenance for the Company's Beechcraft 1900D turboprop engines. The contract requires a monthly payment based upon flight hours incurred by the covered aircraft. The hourly rate is subject to annual adjustment based on changes in certain price indices and is guaranteed to increase by no less than 1.5% per year. Pursuant to the agreement, the Company sold certain assets of its Desert Turbine Services unit, as well as all spare PT6 engines to PWC for \$6.8 million, which approximated the net book value of the assets. Pursuant to the agreement, the Company provided a working capital loan to PWC for the same amount, which is to be repaid through a reduced hourly rate being charged for maintenance. The agreement covers all of the Company's Beechcraft 1900D turboprop aircraft and engines. The agreement also contains a termination clause and look back provision to provide for any shortfall between the cost of maintenance incurred by the provider and the amount paid up to the termination date by the Company and provides for return of a pro-rated share of the prepaid amount upon early termination. The Company does not anticipate an early termination under the contract.

In August 2005, the Company entered into a ten-year agreement with AAR Corp. (the "AAR Agreement") for the management and repair of certain of the Company's CRJ-200, -700, -900 and ERJ-145 aircraft rotatable spare parts inventory. The agreement was subsequently amended in the third quarter of 2007. Under the agreement, the Company sold certain existing spare parts inventory to AAR for \$39.6 million in cash and \$21.5 million in notes receivable (discounted to \$18.8 million) to be paid over four years. The AAR agreement was contingent upon the Company terminating an agreement for the Company's CRJ-200 aircraft rotatable spare parts inventory with GE Commercial Aviation Services ("GECAS") and including these rotatables in the arrangement. The Company terminated the GECAS agreement and finalized the AAR agreement in November 2005. Upon entering into the agreement, the Company received \$22.8 million (\$23.8 million less \$1 million deposit that was retained by AAR), which was recorded as a deposit at September 30, 2005, pending the termination of the GECAS agreement. An additional \$15.8 million was received in the quarter ended December 31, 2005. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance and servicing of the inventory. The agreement also contains certain minimum monthly payments that Mesa must make to AAR. Based on this arrangement, the Company accounts for the transaction as a service agreement and an operating lease.

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

of rotatable spare parts with AAR. The sale of the rotatable spare parts resulted in a gain of \$2.1 million, which has been deferred and is being recognized over the term of the agreement. At termination, the Company may elect to purchase the covered inventory at fair value, but is not contractually obligated to do so.

In June 2006, the Company entered into a separate two-year agreement with AAR for the management and repair of the Company's CRJ-200 aircraft rotatable spare parts inventory associated with its *go!* operations. Under this agreement, the Company transferred certain existing spare parts inventory to AAR for \$1.2 million in cash. AAR was required to purchase an additional \$2.9 million in rotatable spare parts to support the agreement. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance of the inventory. At termination, the Company has guaranteed the fair value of the underlying rotatables. Based on this arrangement, the Company accounts for the transaction as a financing arrangement, thus recording both the rotatable spare parts inventory as an asset and the related payable to AAR as a liability.

During the second quarter of fiscal 2007, the Company amended a five-year heavy equipment maintenance agreement with a vendor. The agreement provides a rebate based upon annual volumes up to \$10.0 million over the next five years. The agreement also includes penalties in the event our annual volumes fall below certain levels. The maximum penalty possible would be \$19.0 million if our annual volumes were zero for all five years. Rebates of approximately \$2.1 million have been recognized for the nine months ended June 30, 2007.

In February 2006, Hawaiian Airlines, Inc. ("Hawaiian") filed a complaint against the Company in the United States Bankruptcy Court for the District of Hawaii (the "Bankruptcy Court") alleging that the Company breached the terms of a Confidentiality Agreement entered into in April 2004 with the Trustee in Hawaiian's bankruptcy proceedings. Hawaiian's complaint alleges, among other things, that the Company breached the Confidentiality Agreement by (a) using the evaluation material to obtain a competitive advantage over Hawaiian, through the development and implementation of a business plan to compete with Hawaiian in the inter-island market, and (b) failing to return or destroy any evaluation materials after being notified by Hawaiian on or about May 12, 2004 that the Company had not been selected as a potential investor for a transaction with Hawaiian. Hawaiian, in its complaint, seeks unspecified damages, requests that the Company turn over to Hawaiian any evaluation material in the Company's possession, custody or control (the "Turnover Claim"), and an injunction preventing the Company from providing inter-island transportation services in the State of Hawaii for a period of two years from the date of such injunctive relief.

The Company vigorously denies Hawaiian's allegations and requests for relief contained in its complaint. The Company filed both an answer and an antitrust counterclaim against Hawaiian in response to its complaint. In May 2006, the Company filed a motion to dismiss the Turnover Claim contained in Hawaiian's complaint, but the Bankruptcy Court denied that motion. On December 8, 2006 the Bankruptcy Court, based on constitutional access to the courts, also granted Hawaiian's motion for summary judgment against the Company on its antitrust counterclaim. The Company does not believe that either of these decisions has a material impact on the Company's position in the lawsuit. Finally, in October 2006, the Bankruptcy Court denied Hawaiian's effort to enjoin the Company's *go!* operation from selling tickets claiming that *go!*'s entry into the inter-island air transport business was based on trade secrets furnished to Mesa during the Hawaiian bankruptcy. The Court found no such misuse of confidential information and rejected Hawaiian's motion for a preliminary injunction.

In June 2006, Hawaiian requested a preliminary injunction to prevent the Company from issuing new airline tickets for the Hawaiian inter-island market for a period of one year. In this request, Hawaiian alleges that initial discovery conducted reveals that the Company breached the Confidentiality Agreement. The Court has recently denied Hawaiian's request for a preliminary injunction. The case will be tried in September 2007.

On October 13, 2006, Aloha Airlines filed suit against Mesa Air Group and two of its Hawaii based employees (individual defendants subsequently dismissed without prejudice). The complaint was filed in State Court in Hawaii and contains 11 counts and seeks damages and injunctive relief. The Company believes the purpose of the complaint is to blunt Mesa's entry into the Hawaii inter-island market segment. Aloha alleges that Mesa's inter-island air fares

MESA AIR GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

are below cost and that Mesa is, therefore, violating specific provisions of Hawaii antitrust and unfair competition law. Aloha also alleges breach of contract and fraud by Mesa in connection with two confidentiality agreements, one in 2005 and the other in 2006.

In 1992, The Supreme Court of the United States decided Morales v. TWA, in which it construed the Airline Deregulation Act as prohibiting any state court, under any state law legal theory, from adjudicating issues which implicated an air carrier's pricing (or other service) practices. Accordingly, an airline's pricing decisions can be attacked only under federal laws. In response to the complaint, Mesa filed a motion on December 8, 2006 seeking dismissal of all claims based upon Hawaii Statutory Law that rest on Mesa's alleged below-cost pricing. Following the filing of Mesa's Motion to Dismiss, Aloha, on January 10, 2007, voluntarily chose to dismiss the action filed in State Court, and simultaneously filed a new complaint in the United States District Court for the District of Hawaii (filed on January 9, 2007). Aloha's federal complaint abandoned claims regarding below-cost pricing under Hawaii's Statutory Law and instead asserted claims under contract and federal antitrust law. On March 19, 2007, the United States District Court denied Mesa's motion to dismiss the contract claims under the authority of Morales and its progeny. Mesa has asked the District Court to certify that ruling for immediate appellate review.

Mesa denies any improper use of the data furnished by Aloha while Mesa was considering a bid for Aloha during its bankruptcy. The case is in its early stages and has been set for trial in April 2008.

The Company is also involved in various legal proceedings and FAA civil action proceedings that the Company does not believe will have a material adverse effect upon its business, financial condition or results of operations, although no assurance can be given to the ultimate outcome of any such proceedings.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of the Company's results of operations and financial condition. The discussion should be read in conjunction with the Consolidated Financial Statements and the related notes thereto, and the Selected Financial Data and Operating Data contained elsewhere herein.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain statements including, but not limited to, information regarding the replacement, deployment, and acquisition of certain numbers and types of aircraft, and projected expenses associated therewith; costs of compliance with Federal Aviation Administration regulations and other rules and acts of Congress; the passing of taxes, fuel costs, inflation, and various expenses to the consumer; the relocation of certain operations of Mesa; the resolution of litigation in a favorable manner and certain projected financial obligations. These statements, in addition to statements made in conjunction with the words "expect," "anticipate," "intend," "plan," "believe," "seek," "estimate," and similar expressions, are forward-looking statements within the meaning of the Safe Harbor provision of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to future events or the future financial performance of Mesa and only reflect management's expectations and estimates. The following is a list of factors, among others, that could cause actual results to differ materially from the forward-looking statements: changing business conditions in certain market segments and industries; changes in Mesa's code-sharing relationships; the inability of Delta Air Lines, US Airways or United Airlines to pay their obligations under the code-share agreements; an increase in competition along the routes Mesa operates or plans to operate; material delays in completion by the manufacturer of the ordered and yet-to-be delivered aircraft; availability and cost of funds for financing new aircraft; changes in general economic conditions; changes in fuel price; changes in regional economic conditions; Mesa's relationship with employees and the terms of future collective bargaining agreements; the impact of current and future laws; additional terrorist attacks; Congressional investigations, and governmental regulations affecting the airline industry and Mesa's operations; bureaucratic delays; amendments to existing legislation; consumers unwilling to incur greater costs for flights; our ability to operate our new Hawaiian airline service profitably; unfavorable resolution of legal proceedings involving Hawaiian Airlines and Aloha Airlines regarding our Hawaiian operation; unfavorable resolution of negotiations with municipalities for the leasing of facilities; and risks associated with the outcome of litigation. One or more of these or other factors may cause Mesa's actual results to differ materially from any forward-looking statement. Mesa is not undertaking any obligation to update any forward-looking statements contained in this Form 10-Q.

All references to "we," "our," "us," or "Mesa" refer to Mesa Air Group, Inc. and its predecessors, direct and indirect subsidiaries and affiliates.

GENERAL

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of the Company's results of operations and financial condition. The discussion should be read in conjunction with the Condensed Consolidated Financial Statements and the related notes thereto, contained elsewhere in this Form 10-Q.

Executive Overview

Significant events occurring during the third quarter of fiscal 2007 include:

1. The Company took delivery of 2 CRJ-700's and placed them into service for United Airlines in June, swapping them for 2 50-seat RJs. In addition, the Company removed 2 additional 50-seat RJs, further reducing the Company's exposure to less profitable 50-seat RJ flying at United.

2. The Company announced an order for ten incremental Bombardier NextGen CRJ-700 aircraft (with an option for an eleventh), for delivery late fiscal 2008/early fiscal 2009. These aircraft will replace ten Mesa 50-seat RJs currently flying at United Airlines. Mesa is the launch customer for Bombardier's NextGen aircraft.

3. The Company and Delta have begun implementing their joint plan to eliminate the JFK Dash 8 operations. Three Dash-8's were removed from line service in the third quarter. The remaining nine aircraft will be removed from service during August 2007.

4. The Company celebrated its one year anniversary of its inter-island Hawaii operation *go!*. *go!*'s load factor in June was 72%, up from 63% in May and June also saw *go!*'s highest average fare for 2007. In addition, during the third quarter, *go!*'s frequent flyer membership almost doubled.

5. The Company continued to prepare for the launch of its Chinese joint venture, Kun Peng Airlines. In June 2007, three CRJ-200 aircraft began the conformity process for sublease to the joint venture. Operations are expected to commence in mid to late September 2007.

6. Work commenced for adding the first of 14 76-seat CRJ-900 regional jets on Mesa's Freedom certificate to be operate for Delta as Delta Connection. The first of the CRJ-900s is expected to be in operation by November 2007.

Code-Share Agreements

During the second quarter, the Company has reached an agreement with Delta Air Lines ("Delta") under its Delta Connection Agreements ("DCA") to remove twelve Dash-8 aircraft operated under the DCA by Mesa's subsidiary Freedom Airlines. This agreement will have no effect on Mesa's recently announced expanded code share agreement with Delta to operate 14 CRJ-900 regional jet aircraft ("Expansion DCA"). After service begins pursuant to the Expansion DCA and the amended DCA, the Mesa regional jet fleet flying for Delta will consist of 14 CRJ-900s and 36 ERJ-145s.

Fleet

Aircraft in operation at June 30, 2007:

Summary Financial Results

The third quarter of fiscal year 2007 generated net income of \$2.6 million or \$0.08 per diluted share compared with net income of \$10.9 million and \$0.25 per diluted share in the third quarter of fiscal 2006. Total net revenue increased \$16.9 million or 5.0% to \$355.9 million on 1.7% more capacity over the same period in the preceding year. Earnings for the three months ended June 30, 2007 versus the same period for 2006 were negatively impacted by a \$9.4 million decrease in bankruptcy settlements, the reversal of a \$5.0 million bad debt provision benefiting fiscal 2006, a \$2.9 million vendor settlement, a \$2.2 million increase in costs associated with the early return of certain Dash-8 aircraft and a \$2.8 million increase in unrealized investment losses. Our fleet has grown from 185 as of June 30, 2006, to 199 as of June 30, 2007.

Our maintenance expenses increased during the quarter on a year-over-year and sequential basis due primarily to a new power-by-the-hour engine memorandum of understanding covering all of our previously uncovered General Electric engines, contractual increases in our existing power-by-the-hour engine agreement with General

Electric, and increased volume due to higher than anticipated usage in our United Express operations as well as contractual increases in our auxiliary power unit (“APU”) overhauls. Power-by-the-hour agreements provide the operator with a fixed engine maintenance cost over an extended period of time.

Our gross operating revenues were \$1,039.9 million for the nine months ended June 30, 2007, an increase of \$65.2 million or 6.7% over the same period in the preceding year. Due to certain impairment charges reflected against revenue, our net revenues were \$1,014.6 million for the nine months ended June 30, 2007 representing an increase of \$39.9 million or 4.1% above that of the preceding year. The net loss for the first nine months of fiscal 2007 was \$13.4 million or \$0.42 per diluted share compared with net income of \$29.2 million and \$0.73 per diluted share in the first nine months of fiscal 2006. The year-over-year variances for the first nine months of 2007 versus 2006 are due primarily to impairment charges totaling \$37.7 million taken during the second quarter of fiscal 2007, a \$0.8 million increase in unrealized investment losses, a \$2.2 million increase in costs associated with the early return of certain Dash-8 aircraft, a \$7.3 million net decrease in bankruptcy settlements, the reversal of a \$5.5 million bad debt provision benefiting fiscal 2006 and \$2.9 million in costs associated with a vendor settlement offset by \$13.1 million in debt conversion costs incurred in 2006.

Approximately 98% of our consolidated passenger revenues for the quarter ended June 30, 2007 were derived from operations associated with code-share agreements. Our subsidiaries have code-share agreements with US Airways, Delta Air Lines, Midwest Airlines and United Airlines. The remaining passenger revenues are derived from our independent operations, *go!* and Mesa Airlines.

The following tables set forth quarterly comparisons for the periods indicated below:

OPERATING DATA

RESULTS OF OPERATIONS

For the three months ended June 30, 2007 versus the three months ended June 30, 2006

Operating Revenues

In the three months ended June 30, 2007, gross operating revenue increased \$16.9 million or 5.0% to \$355.9 million from \$339.0 million in the three months ended June 30, 2006. The increase in revenue is primarily attributable to a \$9.3 million increase in Mesa/Freedom revenue, driven by higher activity-based revenue as a result of the increased number of aircraft in service with our code-share partners. Contract revenue would have increased more except that United, beginning in January 2007 in the Chicago O'Hare station, began purchasing its own fuel, which reduced fuel expense and revenue by approximately \$10.6 million for the quarter. Due to the pass-through feature of our code share agreements, this did not effect our earnings. In addition, Air Midwest/go! revenue increased \$7.4 million due to a \$5.2 million increase in prorate revenue, a \$1.3 million increase in Essential Air Service ("EAS") revenue, and a \$0.9 million increase in other subsidies.

Operating Expenses

Flight Operations

In the three months ended June 30, 2007, flight operations expense increased \$3.2 million, or 3.4%, to \$96.1 million from \$92.9 million for the three months ended June 30, 2006. The increase is due primarily to volume from increased aircraft lease expenses associated with additional Delta Dash-8's at Mesa/Freedom and CRJ-200's at go!, in addition to increased wages and lodging expenses due to the startup of our Delta Dash-8 operation in JFK. On an available seat miles ("ASMs") basis in the three months ended June 30, 2007, flight operations expense of \$0.041 per ASM remained unchanged from the three months ended June 30, 2006.

Fuel

In the three months ended June 30, 2007, fuel expense decreased \$1.1 million, or 0.9%, to \$120.9 million from \$122.0 million for the three months ended June 30, 2006. On an ASM basis, fuel expense decreased 1.9% to \$0.052 per ASM in the three months ended June 30, 2007 compared to \$0.053 per ASM in the three months ended June 30, 2006. Overall consumption of fuel decreased by 0.5 million gallons or 1.0% in the three months ended in June 30, 2007 to 52.3 million gallons from 52.8 million gallons in the three months ended June 30, 2006 resulting in a \$0.80 million expense decrease due to volume. Our into-plane fuel cost for the three months ended June 30, 2007 was flat year-over-year at \$2.31 per gallon. Total gallons would have increased more in line with the increase in block hours, which increased 10.5% in the three months ended June 30, 2007, except that United, beginning in January 2007 in the Chicago O'Hare station, began purchasing its own fuel which reduced Mesa's fuel expense and revenue by 4.6 million gallons or approximately \$10.6 million, respectively.

Maintenance Expense

In the three months ended June 30, 2007, maintenance expense increased \$11.0 million, or 18.0%, to \$71.8 million from \$60.8 million for the three months ended June 30, 2006. On an ASM basis, maintenance expense increased 14.8% to \$0.031 per ASM in the three months ended June 30, 2007 from \$0.027 per ASM in the three months ended June 30, 2006. The \$11.0 million increase consists primarily of a \$3.8 million increase in Material Repair / Services expenses related to engine and landing gear component overhauls and a \$2.2 million increase in engine overhauls due to additional maintenance activity. These amounts were partially offset by a reclassification of

certain vendor rebates. In addition, maintenance expense at Air Midwest/*go!* increased \$1.6 million year-over-year due to *go!*'s increased operations during the three months ended June 30, 2007.

Aircraft and Traffic Servicing

In the three months ended June 30, 2007, aircraft and traffic servicing expense increased \$2.0 million, or 9.8%, to \$22.9 million from \$20.9 million for the three months ended June 30, 2006. On an ASM basis, aircraft and traffic servicing expense increased 11.1% to \$0.010 per ASM in the three months ended June 30, 2007 from \$0.009 per ASM in the three months ended June 30, 2006. Aircraft and traffic servicing expense in the Mesa/Freedom segment increased \$1.1 million, which included a \$0.6 million decrease in station rents offset by \$1.7 million increase in passenger related costs, primarily landing fees. This increase was primarily a result of moving into higher cost east coast cities for United and Delta. These costs are reimbursed by our code-share partners. Aircraft and traffic servicing expense in the Air Midwest/*go!* segment increased \$2.2 million primarily due to the start up of *go!*

Promotion and Sales

In the three months ended June 30, 2007, promotion and sales expense increased \$1.0 million, or 72.5%, to \$2.3 million from \$1.3 million for the three months ended June 30, 2006. The increase is primarily due to promotional expenses at *go!*

General and Administrative

In the three months ended June 30, 2007, general and administrative expense increased \$2.2 million, or 15.3%, to \$16.5 million from \$14.3 million for the three months ended June 30, 2006. For the period ended June 30, 2006, a bad debt provision of \$5.5 million for US Airways was reversed upon the Bankruptcy Court's allowance of Mesa's US Airways bankruptcy claims. Partially offsetting this amount is a decrease in workers' compensation in the period ending June 30, 2007.

Depreciation and Amortization

In the three months ended June 30, 2007, depreciation and amortization expense increased \$1.2 million, or 13.2%, to \$10.2 million from \$9.0 million for the three months ended June 30, 2006. The increase is primarily due to the addition of 3 owned CRJ-700 aircraft during the second quarter of 2007. These three aircraft were subsequently refinanced through a sale/leaseback transaction. Depreciation and amortization for *go!* increased \$0.4 million primarily due to the launch of *go!* and the depreciation of certain assets placed in service to support *go!*'s operations.

Vendor Settlement

During the third quarter of fiscal 2007, the Company revised its spare parts maintenance agreement with a vendor to settle a prior billing dispute and to limit certain future costs which previously were able to escalate. The Company recorded a \$2.9 million charge in settlement of this dispute.

Bankruptcy Settlements

During the third quarter of 2007, the Company received shares of Delta stock as part of the Delta bankruptcy settlement. These shares were recorded at the fair market value on the date of receipt and the resulting \$16.3 million gain is being amortized over the remaining life of the Delta contract as these amounts are viewed as a piece of the ongoing Delta contract taken as a whole. This amortization was \$0.5 million for the three months ended June 30, 2007. For the three months ended June 30, 2006, a US Airways related bankruptcy claim, of \$9.7 million, was recorded as a settlement.

Interest Expense

In the three months ended June 30, 2007, interest expense increased \$1.8 million, or 19.4%, to \$11.2 million from \$9.4 million for the three months ended June 30, 2006. The net increase in interest expense is primarily due to a re-classification of certain vendor rebates.

Interest Income

In the three months ended June 30, 2007, interest income decreased \$0.6 million, or 17.0%, to \$3.0 million from \$3.6 million. The decrease is mainly due to reductions in the marketable securities portfolio over the quarter compared to the third quarter of 2006. Interest earned on prepaid maintenance deposits also decreased due to the return of two aircraft.

Other Income (Expense)

In the three months ended June 30, 2007, other income increased \$3.9 million or 105.2% to \$0.2 million from (\$3.7) million for the three months ended June 30, 2006. This increase is due primarily to \$4.7 million in net unrealized gains on investment securities, income from our equity investment of \$0.3 million and a refund of EMB holding costs of \$0.3 million. This increase is partially offset by an increase in the loss on disposal of assets of \$1.6 million.

Income Taxes

In the third quarter of fiscal 2007, we recorded a tax expense of \$1.8 million compared to income tax expense of \$7.1 million in the third quarter of fiscal 2006. The effective tax rate for the quarter of 41.3% is higher than normal due primarily to the large loss incurred during the second quarter combined with the permanent differences which are relatively fixed and recurring in nature. These items combine to reduce the year-to-date expected tax benefit and to increase the current expense.

RESULTS OF OPERATIONS

For the nine months ended June 30, 2007 versus the nine months ended June 30, 2006

Operating Revenues

In the nine months ended June 30, 2007, gross operating revenue increased \$65.2 million or 6.7% to \$1,039.9 million from \$974.7 million in the nine months ended June 30, 2006. The increase in revenue is primarily attributable to a \$49.6 million increase in contract revenue for Mesa/Freedom, driven primarily by higher activity-based revenue as a result of the increased number of aircraft in service with our code-share partners. Contract revenue would have increased more except that United, beginning in January 2007 in the Chicago O'Hare station, began purchasing its own fuel, which reduced fuel expense and revenue by approximately \$19.0 million for the nine month period. Air Midwest/*go!* revenue increased \$23.0 million due to a \$16.2 million increase in prorate revenue, a \$5.5 million increase in Essential Air Service revenue, and a \$2.1 million increase in other subsidies, offset by reduced other revenue. During the second quarter of 2007 the Company evaluated the recoverability of certain long-term assets which resulted in an impairment charge of \$37.7 million. A portion of that charge, \$25.3 million, related to certain contract incentives that had previously been paid to United and were reflected against gross revenue in the statements of operations. Accordingly, our net revenues were \$1,014.6 million for the nine months ended June 30, 2007 representing an increase of \$39.9 million or 4.1% above that of the preceding year.

Operating Expenses

Flight Operations

In the nine months ended June 30, 2007, flight operations expense increased \$14.3 million, or 5.2%, to \$288.0 million from \$273.6 million for the nine months ended June 30, 2006. On an ASM basis in the nine months ended June 30, 2007, flight operations expense increased 2.4% to \$0.041 per ASM compared to \$0.040 per ASM in the nine months ended June 30, 2006. The increase is primarily due to increased aircraft lease expenses associated with additional Delta Dash-8's at Mesa/Freedom and CRJ-200s at *go!*, increased wages and lodging expenses due to *go!* and our Delta Dash-8 operation in JFK which didn't start until July of 2006. These increases were partially offset by lower flight simulator lease expense related to lower simulator training activity this year.

Fuel

In the nine months ended June 30, 2007, fuel expense increased \$13.8 million, or 4.2%, to \$343.8 million from \$330.0 million for the nine months ended June 30, 2006. On an ASM basis, fuel expense increased 1.8% to \$0.050 per ASM in the nine months ended June 30, 2007 compared to \$0.049 per ASM in the nine months ended June 30, 2006. Overall consumption of fuel increased by 7.6 million gallons or 4.9% in the nine months ended in June 30, 2007 to 162.1 million gallons from 154.5 million gallons in the nine months ended June 30, 2006; resulting in a \$13.8 million expense increase due to volume. Our into-plane fuel cost for the nine months ended June 30, 2007 was \$2.12 per gallon, down 1.0% from \$2.14 per gallon for the nine months ended June 30, 2006. Total gallons would have increased more in line with the increase in block hours, which increased 12.2% in the nine months ended June 30, 2007, except that United, beginning in January 2007 in the Chicago O'Hare station, began purchasing its own fuel which reduced Mesa's fuel expense and revenue by 8.9 million gallons or approximately \$19.0 million, respectively.

Maintenance Expense

In the nine months ended June 30, 2007, maintenance expense increased \$43.9 million, or 26.8% to \$207.9 million from \$169.0 million for the nine months ended June 30, 2006. The increase consists primarily of an \$8.7 million increase in base and line maintenance costs reflecting additional mechanics as well as new or larger maintenance operations at O'Hare, Dulles, and JFK; airframe checks increase \$7.9 million primarily due to additional checks for CRJ-200's this year; material repair/services increased \$8.4 million due to higher engine and landing gear component overhauls; engine overhauls increased \$5.1 million due primarily to a new power-by-the-hour engine agreement covering all of our previously uncovered GE engines and contractual increases and engine rent increased due to a reclassification to maintenance expense. Maintenance expense at Air Midwest^{go!} increased \$5.0 million year-over-year. On an ASM basis, maintenance expense increased 23% to \$0.030 per ASM in the nine months ended June 30, 2007 from \$0.024 per ASM in the nine months ended June 30, 2006.

Aircraft and Traffic Servicing

In the nine months ended June 30, 2007, aircraft and traffic servicing expense increased \$12.8 million, or 23.1%, to \$68.2 million from \$55.4 million for the nine months ended June 30, 2006. On an ASM basis, aircraft and traffic servicing expense increased 24% to \$0.01 per ASM in the nine months ended June 30, 2007 from \$0.008 per ASM in the nine months ended June 30, 2006. Aircraft and traffic servicing expense in the Mesa/Freedom segment increased \$7.7 million, which included an increase in station rents and an increase in passenger related costs, primarily landing fees. These increases were primarily the result of moving into higher cost east coast cities for United and Delta. These costs are largely reimbursed by our code-share partners. Aircraft and traffic servicing expense in the Air Midwest^{go!} segment increased \$6.7 million primarily due to the start up of ^{go!}.

Promotion and Sales

In the nine months ended June 30, 2007, promotion and sales expense increased \$2.7 million, or 90.1%, to \$5.7 million from \$3.0 million for the nine months ended June 30, 2006. The increase is primarily due to promotional expenses at ^{go!}.

General and Administrative

In the nine months ended June 30, 2007, general and administrative expense increased \$3.0 million, or 6.4%, to \$50.2 million from \$47.2 million for the nine months ended June 30, 2006. This increase is due primarily to a \$5.5 million reversal related to the US Airways bankruptcy settlement offset partially by a decrease in workers' compensation.

Depreciation and Amortization

In the nine months ended June 30, 2007, depreciation and amortization expense increased \$4.2 million, or 15.3%, to \$31.2 million from \$27.0 million for the nine months ended June 30, 2006. The increase is primarily due to the addition of 3 CRJ-700 aircraft during the second quarter of 2007. Depreciation and amortization for ^{go!}

increased \$1.5 million primarily due to the launch of *go!* and the depreciation of certain assets placed in service to support *go!*'s operations.

Vendor Settlement

During the third quarter of fiscal 2007, the Company revised its spare parts maintenance agreement with a vendor to settle a prior billing dispute and to limit certain future costs which previously were able to escalate. The Company recorded a \$2.9 million charge in settlement of this dispute.

Bankruptcy Settlements

In the nine months ended June 30, 2007, the Company received approximately 48,000 shares of US Airways stock. This benefit was recorded as a settlement of its US Airways related bankruptcy claim. For the nine months ended June 30, 2007, the settlement was \$2.4 million and \$9.7 million, respectively. During the third quarter of 2007 the Company, received shares of Delta stock as part of the Delta bankruptcy settlement. These shares were recorded at the fair market value on the date of receipt and the resulting gain of \$16.3 million is being amortized over the remaining life of the Delta contract as these amounts are viewed as a piece of the ongoing Delta contract taken as a whole. This amortization was \$0.5 million for the third quarter ended June 30, 2007.

Impairment of Long-Lived Assets

In the nine months ended June 30, 2007, in accordance with FAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company took an impairment charge of \$12.4 million (which was in addition to the \$25.3 million noted above) related to leasehold improvements pertaining to certain aircraft under the United and Delta code share agreements where the gross undiscounted cash flows related to long-term assets was computed and found to be less than the carrying value of the long-lived assets. There were no such impairment charges in the nine months ended June 30, 2006.

Interest Expense

In the nine months ended June 30, 2007, interest expense increased \$3.7 million, or 13.3% to \$31.4 million from \$27.7 million for the nine months ended June 30, 2006. The net increase in interest expense is primarily due to new debt associated with the addition of three CRJ-700 aircraft during the first quarter of 2007 and a re-classification of certain vendor rebates

Interest Income

In the nine months ended June 30, 2007, interest income increased \$2.2 million, or 24.3%, to \$11.4 million from \$9.2 million. The increase is mainly due to additions in the average marketable securities portfolio and the inclusion of interest income related to the Company's investment in Nilchii.

Other Expense

In the nine months ended June 30, 2007, other expense decreased \$10.2 million or 56.8% to \$7.8 million from \$18.0 million for the nine months ended June 30, 2006. This decrease is due primarily to a \$13.1 million reduction in debt conversion costs offset by increases of \$3.3 million from equity method losses. The equity method losses were non-cash accounting charges.

Income Taxes

In the nine months ended June 30, 2007 we recorded a tax benefit of \$7.6 million compared to income tax expense of \$18.5 million in the nine months ended June 30, 2006. The effective tax rate for the period of 36.1% and the Company's tax benefit, is lower than normal due primarily to the large loss incurred during the second quarter combined with the permanent differences which are relatively fixed and recurring in nature. These items combine to reduce the annual expected tax benefit.

LIQUIDITY AND CAPITAL RESOURCES

Sources and Uses of Cash

At June 30, 2007, we had cash, cash equivalents, and marketable securities (including restricted cash) of \$209.9 million, compared to \$234.3 million at September 30, 2006. Our cash and cash equivalents and marketable securities are intended to be used for working capital, capital expenditures, acquisitions, and to fund our obligations with respect to regional jet deliveries.

Sources of cash for the nine months ended June 30, 2007 were due primarily to cash flow from operations before changes in assets and liabilities of \$49.7 million. Changes in assets and liabilities added \$35.7 million in positive cash flow resulting in \$85.4 million in cash provided by operating activities. The \$35.7 million was due primarily to proceeds from sales of investment securities, and an increase in accounts payable offset by an increase in receivables, prepaid expenses and expendable parts.

Cash used in investing activities was \$12.1 million due primarily to capital expenditures of \$28.8 million related to the expansion of our regional jet fleet and related provisioning of rotatable inventory to support the additional jets and an additional investment deposit of \$1.3 million. These amounts were offset by returns of deposits previously paid on leases and equipment and a decrease in other assets. In addition, during the second quarter of 2007, the Company entered into a sale-leaseback arrangement. Under the arrangement, the Company sold three engines for \$10.0 million and leased them back for a period of 120 months. The leaseback has been accounted for as an operating lease. The gain of \$1.0 million realized on this transaction has been deferred and will be amortized to income in proportion to rental expense over the term of the lease.

Cash used in financing activities were \$51.2 million due primarily to net reductions in long-term debt totaling \$36.0 million and \$40.1 million in common stock repurchased by the Company.

As of June 30, 2007, we had net receivables of approximately \$61.8 million (net of an allowance for doubtful accounts of \$2.2 million), compared to receivables of approximately \$47.4 million (net of an allowance for doubtful accounts of \$1.6 million) as of September 30, 2006. The amounts due consist primarily of receivables due from our code-share partners, subsidy payments due from Raytheon, Federal excise tax refunds on fuel, insurance proceeds, manufacturers credits and passenger ticket receivables due through the Airline Clearing House. Accounts receivable from our code-share partners were 40% of total gross accounts receivable at June 30, 2007.

Sources of cash for the nine months ended June 30, 2006 were due primarily to cash flow from operations before changes in assets and liabilities of \$64.8 million. Changes in assets and liabilities used \$87.2 million in negative cash flow to result in \$22.4 million in cash used by operating activities. The \$87.2 million was due primarily to purchases of investment securities, an increase in prepaid expenses and other current assets and incentive payments made in connection with the United amendment. Cash used in investing activities were \$11.8 million due primarily to capital expenditures and an increase in restricted cash offset by proceeds from the sale of flight equipment. Cash flows used in financing activities totaling \$28.5 million consisted primarily of principal payments on long-term debt and payments made to finance our rotatable inventory.

Operating Leases

We have significant long-term lease obligations primarily relating to our aircraft fleet. These leases are classified as operating leases and are therefore excluded from our consolidated balance sheets. At June 30, 2007, we leased 157 aircraft with remaining lease terms ranging from one to 16.5 years. Future minimum lease payments due under all long-term operating leases were approximately \$2.2 billion at June 30, 2007.

3.625% Senior Convertible Notes due 2024

In February 2004, we completed the private placement of senior convertible notes due 2024, which resulted in gross proceeds of \$100.0 million (\$97.0 million, net). Cash interest is payable on the notes at the rate of 2.115% per year on the aggregate amount due at maturity, payable semiannually in arrears on February 10 and August 10 of each year, beginning August 10, 2004, until February 10, 2009. After that date, we will not pay cash interest on the notes prior to maturity, and the notes will begin accruing original issue discount at a rate of 3.625% until maturity.

On February 10, 2024, the maturity date of the notes, the principal amount of each note will be \$1,000. The aggregate amount due at maturity, including interest accrued from February 10, 2009, will be \$171.4 million. Each of our wholly owned domestic subsidiaries guarantees the notes on an unsecured senior basis. The notes and the note guarantees are senior unsecured obligations and rank equally with our existing and future senior unsecured indebtedness. The notes and the note guarantees are junior to the secured obligations of our wholly owned subsidiaries to the extent of the collateral pledged.

The notes were sold at an issue price of \$583.40 per note and are convertible into shares of our common stock at a conversion rate of 40.3737 shares per note, which equals a conversion price of \$14.45 per share. This conversion rate is subject to adjustment in certain circumstances. Holders of the notes may convert their notes only if: (i) after March 31, 2004, the sale price of our common stock exceeds 110% of the accreted conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding quarter; (ii) on or prior to February 10, 2019, the trading price for the notes falls below certain thresholds; (iii) the notes have been called for redemption; or (iv) specified corporate transactions occur. These notes are not yet convertible. We may redeem the notes, in whole or in part, beginning on February 10, 2009, at a redemption price equal to the issue price, plus accrued original issue discount, plus any accrued and unpaid cash interest. The holders of the notes may require us to repurchase the notes on February 10, 2009 at a price of \$583.40 per note plus accrued and unpaid cash interest, if any, on February 10, 2014 at a price of \$698.20 per note plus accrued and unpaid cash interest, if any, and on February 10, 2019 at a price of \$835.58 per note plus accrued and unpaid cash interest, if any.

6.25% Senior Convertible Notes Due 2023

In June 2003, we completed the private placement of senior convertible notes due 2023, which resulted in gross proceeds of \$100.1 million (\$96.9 million, net). Cash interest is payable on the notes at the rate of 2.4829% per year on the aggregate amount due at maturity, payable semiannually in arrears on June 16 and December 16 of each year, beginning December 16, 2003, until June 16, 2008. After that date, we will not pay cash interest on the notes prior to maturity, and the notes will begin accruing original issue discount at a rate of 6.25% until maturity. On June 16, 2023, the maturity date of the notes, the principal amount of each note will be \$1,000. The aggregate amount due at maturity, including interest accrued from June 16, 2008, will be \$252.0 million. Each of our wholly-owned domestic subsidiaries guarantees the notes on an unsecured senior basis. The notes and the note guarantees are senior unsecured obligations and rank equally with our existing and future senior unsecured indebtedness. The notes and the note guarantees are junior to the secured obligations of our wholly-owned subsidiaries to the extent of the collateral pledged.

The notes were sold at an issue price of \$397.27 per note and are convertible into shares of our common stock at a conversion rate of 39.727 shares per note, which equals a conversion price of \$10 per share. This conversion rate is subject to adjustment in certain circumstances. Holders of the notes may convert their notes only if: (i) the sale price of our common stock exceeds 110% of the accreted conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding quarter; (ii) prior to June 16, 2018, the trading price for the notes falls below certain thresholds; (iii) the notes have been called for redemption; or (iv) specified corporate transactions occur. These notes became convertible in 2003. The Company may redeem the notes, in whole or in part, beginning on June 16, 2008, at a redemption price equal to the issue price, plus accrued original issue discount, plus any accrued and unpaid cash interest. The holders of the notes may require the Company to repurchase the notes on June 16, 2008 at a price of \$397.27 per note plus accrued and unpaid cash interest, if any, on June 16, 2013 at a price of \$540.41 per note plus accrued and unpaid cash interest, if any, and on June 16, 2018 at a price of \$735.13 per note plus accrued and unpaid cash interest, if any.

In fiscal 2006, holders of \$156.8 million in aggregate principal amount at maturity (\$62.3 million carrying amount) of these senior convertible notes due 2023 converted their notes into shares of Mesa common stock. In connection with these conversions, we issued an aggregate of 6.2 million shares of Mesa common stock and also paid approximately \$11.3 million in debt conversion costs to these noteholders. We also wrote off \$1.8 million in debt issue costs related to these notes.

Interim and Permanent Aircraft Financing Arrangements

At September 30, 2006, the Company had an aggregate of \$123.1 million in notes payable to an aircraft manufacturer for five aircraft on interim financing. During the second quarter of 2007, the Company permanently financed these five aircraft as well as a sixth aircraft delivered during the first quarter of 2007 with \$135.4 million in long-term debt. Under interim financing arrangements, we take delivery and title of the aircraft prior to securing permanent financing and the acquisition of the aircraft is accounted for as a purchase with debt financing. Accordingly, we reflect the aircraft and debt under interim financing on our balance sheet during the interim financing period. After taking delivery of the aircraft, it is our practice and our intention to subsequently enter into a sale and leaseback transaction with an independent third-party lessor. Upon permanent financing, the proceeds from the sale and leaseback transaction are used to retire the notes payable to the aircraft manufacturer. Any gain recognized on the sale and leaseback transaction is deferred and amortized over the life of the lease. These interim financing agreements typically have a term of six months and provide for monthly interest only payments at LIBOR plus three percent. The current interim financing agreement with the manufacturer provides for us to have a maximum of 15 aircraft on interim financing at any one time.

Other Indebtedness and Obligations

In October 2004, the Company permanently financed five CRJ-900 aircraft with \$118.0 million in debt. The debt bears interest at the monthly LIBOR plus three percent and requires monthly principal and interest payments.

In January and March 2004, the Company permanently financed five CRJ-700 and six CRJ-900 aircraft with \$254.7 million in debt. The debt bears interest at the monthly LIBOR plus three percent and requires monthly principal and interest payments.

In December 2003, we assumed \$24.1 million of debt in connection with our purchase of two CRJ-200 aircraft in the Midway Chapter 7 bankruptcy proceedings. The debt, due in 2013, bears interest at the rate of 7% per annum through 2008, converting to 12.5% thereafter, with principal and interest due monthly.

As of June 30, 2007, we had \$12.2 million in restricted cash on deposit collateralizing various letters of credit outstanding and the ACH funding of our payroll.

Contractual Obligations

As of June 30, 2007, we had \$683.0 million of long-term debt (including current maturities). This amount consisted of \$544.2 million in notes payable related to owned aircraft, \$137.8 million in aggregate principal amount of our senior convertible notes due 2023 and 2024 and \$1.0 million in other miscellaneous debt.

The following table sets forth our cash obligations (including principal and interest) as of June 30, 2007.

Obligations	Payment Due by Period						Total
	2007	2008	2009	2010	2011	Thereafter	
	(In thousands)						
Long-term debt:							
Note payable related to CRJ700s and 900s(1)	\$ 11,667	\$ 46,086	\$ 45,206	\$ 44,320	\$ 43,395	\$ 297,553	\$ 488,227
2003 senior convertible debt notes (assuming no conversions)	1,182	1,182	—	—	—	95,234	97,598
2004 senior convertible debt notes (assuming no conversions)	1,813	3,625	1,813	—	—	171,409	178,660
Senior CR7 CR9	3,424	13,699	13,702	13,706	13,709	134,542	192,782
Subordinate CR7 CR9	680	2,719	2,719	2,719	5,698	3,619	18,154
Notes payable related to B1900Ds	2,983	11,938	11,938	28,870	24,993	8,972	89,694
Note payable related to CRJ200s(1)	750	3,000	3,000	3,000	3,000	14,952	27,702
Mortgage note payable	27	109	824	—	—	—	960
Other	25	25	25	25	25	25	150
Total long-term debt	22,551	82,383	79,227	92,640	90,820	726,306	1,093,927
Payments under operating leases:							
Cash aircraft rental payments(1)	55,561	230,181	205,426	198,260	203,140	1,301,475	2,194,043
Lease payments on equipment and operating facilities	341	1,392	962	947	956	1,198	5,796
Total lease payments	55,902	231,573	206,388	199,207	204,096	1,302,673	2,199,839
Future aircraft acquisition costs(2)	—	—	300,000	—	—	—	300,000
Rotable inventory financing commitments	145	563	540	2,241	—	—	3,489
Minimum payments due under rotatable spare parts maintenance agreement	11,723	26,650	29,371	32,225	32,614	136,476	269,059
Total	\$ 90,321	\$ 341,169	\$ 615,526	\$ 326,313	\$ 327,530	\$ 2,165,455	\$ 3,866,314

(1) Aircraft ownership costs, including depreciation and interest expense on owned aircraft and rental payments on operating leased aircraft, of aircraft flown pursuant to our guaranteed-revenue agreements are reimbursed by the applicable code-share partner.

(2) Represents the estimated cost of commitments to acquire CRJ-900 aircraft.

Maintenance Commitments

During the second quarter of fiscal 2007, the Company entered into a memorandum of understanding (“MOU”) with Delta’s Technical Operations division (“DTO”) for its previously uncovered General Electric Aircraft Engines (“GE”) engines. The MOU requires a monthly payment based upon the prior month’s flight hours incurred by the covered engines. The hourly rate increases over time based upon the engine overhaul costs that are expected to be incurred in that year and is subject to escalation based on changes in certain price indices. Maintenance expense is recognized based upon the product of flight hours flown and the rate in effect for the period.

In January 1997, the Company entered into a 10-year engine maintenance contract with GE for certain of our CRJ-200 aircraft engines. The agreement was subsequently amended in the first quarter of fiscal 2003 and third quarter of fiscal 2007. The amended contract requires a monthly payment based upon the prior month’s flight hours incurred by the covered engines. The hourly rate increases over time based upon the engine overhaul costs that are expected to be incurred in that year and is subject to escalation based on changes in certain price indices. The contract also provides for a fixed number of engine overhauls per year. To the extent that the number of actual overhauls is less than the fixed number, GE is required to issue a credit to us for the number of events less than the fixed number multiplied by an agreed upon price. To the extent that the number of actual overhauls is greater than

the fixed number, we are required to pay GE for the number of events greater than the fixed number multiplied by the same agreed upon price.

In April 1997, we entered into a 10-year engine maintenance contract with Pratt & Whitney Canada Corp. ("PWC") for our Dash 8-200 aircraft. The contract requires us to pay PWC for the engine overhaul upon completion of the maintenance based upon a fixed dollar amount per flight hour. The rate under the contract is subject to escalation based on changes in certain price indices.

In April 2000, we entered into a 10-year engine maintenance contract with Rolls-Royce Allison ("Rolls-Royce") for its ERJ aircraft. The contract requires us to pay Rolls-Royce for the engine overhaul upon completion of the maintenance based upon a fixed dollar amount per flight hour. The rate per flight hour is based upon certain operational assumptions and may vary if the engines are operated differently than these assumptions. The rate is also subject to escalation based on changes in certain price indices. The agreement with Rolls-Royce also contains a termination clause and look back provision to provide for any shortfall between the cost of maintenance incurred by the provider and the amount paid up to the termination date by us and includes a 15% penalty on such amount. We do not anticipate an early termination under the contract.

In May 2002, we entered into a new six-year fleet management program with PWC to provide maintenance for our Beechcraft 1900D turboprop engines. The contract requires a monthly payment based upon flight hours incurred by the covered aircraft. The hourly rate is subject to annual adjustment based on changes in certain price indices and is guaranteed to increase by no less than 1.5% per year. Pursuant to the agreement, we sold certain assets of our Desert Turbine Services unit, as well as all spare PT6 engines to PWC for \$6.8 million, which approximated the net book value of the assets. Pursuant to the agreement, we provided a working capital loan to PWC for the same amount, which is to be repaid through a reduced hourly rate being charged for maintenance. The agreement covers all of our Beechcraft 1900D turboprop aircraft and engines. The agreement also contains a termination clause and look back provision to provide for any shortfall between the cost of maintenance incurred by the provider and the amount paid up to the termination date by us and provides for return of a pro-rated share of the prepaid amount upon early termination. We do not anticipate an early termination under the contract.

In August 2005, the Company entered into a ten-year agreement with AAR Corp. (the "AAR Agreement"), for the management and repair of certain of the Company's CRJ-200, -700, -900 and ERJ-145 aircraft rotatable spare parts inventory. The agreement was subsequently amended in the third quarter of 2007. Under the agreement, the Company sold certain existing spare parts inventory to AAR for \$39.6 million in cash and \$21.5 million in notes receivable (discounted to \$18.8 million) to be paid over four years. The AAR agreement was contingent upon the Company terminating an agreement for the Company's CRJ-200 aircraft rotatable spare parts inventory with GE Capital Aviation Services ("GECAS") and including these rotatables in the arrangement. The Company terminated the GECAS agreement and finalized the AAR agreement in November 2005. Upon entering into the agreement, the Company received \$22.8 million (\$23.8 million less \$1 million deposit that was retained by AAR), which was recorded as a deposit at September 30, 2005, pending the termination of the GECAS agreement. An additional \$15.8 million was received in the quarter ended December 31, 2005. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance and servicing of the inventory. The agreement also contains certain minimum monthly payments that Mesa must make to AAR. Based on this arrangement, the Company accounts for the transaction as a service agreement and an operating lease of rotatable spare parts with AAR. The sale of the rotatable spare parts resulted in a gain of \$2.1 million, which has been deferred and is being recognized over the term of the agreement. At termination, the Company may elect to purchase the covered inventory at fair value, but is not contractually obligated to do so.

In June 2006, the Company entered into a separate two-year agreement with AAR for the management and repair of the Company's CRJ-200 aircraft rotatable spare parts inventory associated with its *go!* operations. Under this agreement, the Company transferred certain existing spare parts inventory to AAR for \$1.2 million in cash. AAR was required to purchase an additional \$2.9 million in rotatable spare parts to support the agreement. Under the agreement, the Company is required to pay AAR a monthly fee based upon flight hours for access to and maintenance of the inventory. At termination, the Company has guaranteed the fair value of the underlying rotatables. Based on this arrangement, the Company accounts for the transaction as a financing arrangement, thus recording both the rotatable spare parts inventory as an asset and the related payable to AAR as a liability.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. In connection with the preparation of these financial statements, we are required to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, the allowance for doubtful accounts, medical claims reserve, valuation of assets held for sale and costs to return aircraft and a valuation allowance for certain deferred tax assets. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. Such historical experience and assumptions form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We have identified the accounting policies below as critical to our business operations and the understanding of our results of operations. The impact of these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. The discussion below is not intended to be a comprehensive list of our accounting policies. For a detailed discussion on the application of these and other accounting policies, see Note 1 in the Notes to the Consolidated Financial Statements for the year ended September 30, 2006, which contains accounting policies and other disclosures required by accounting principles generally accepted in the United States of America.

Revenue Recognition

The US Airways, United and Delta regional jet code-share agreements are revenue-guarantee flying agreements. Under a revenue-guarantee arrangement, the major airline generally pays a fixed monthly minimum amount, plus certain additional amounts based upon the number of flights flown and block hours performed. The contracts also include reimbursement of certain costs incurred by us in performing flight services. These costs, known as "pass-through costs," may include aircraft ownership costs, passenger and hull insurance, aircraft property taxes as well as, fuel, landing fees and catering. The contracts also include a profit component that may be determined based on a percentage of revenue on the Mesa flown flights, a profit margin on certain reimbursable costs, as well as a profit margin based on certain operational benchmarks. We recognize revenue under our revenue-guarantee agreements when the transportation is provided. The majority of the revenue under these contracts is known at the end of the accounting period and is booked as actual. We perform an estimate of the profit component based upon the information available at the end of the accounting period. All revenue recognized under these contracts is presented at the gross amount billed.

Under the Company's revenue-guarantee agreements with US Airways, United and Delta, the Company is reimbursed under a fixed rate per block-hour plus an amount per aircraft designed to reimburse the Company for certain aircraft ownership costs. In accordance with Emerging Issues Task Force Issue No. 01-08, "Determining Whether an Arrangement Contains a Lease," the Company has concluded that a component of its revenue under the agreement discussed above is rental income, inasmuch as the agreement identifies the "right of use" of a specific type and number of aircraft over a stated period of time. The amount deemed to be rental income during the quarters ended June 30, 2007 and 2006 was \$64.6 million and \$62.5 million, respectively. The amount deemed to be rental income during the nine months ended June 30, 2007 and 2006 was \$196.5 and \$185.3 million, respectively. These amounts are included in passenger revenue on the Company's consolidated statements of operations.

In connection with providing service under the Company's revenue-guarantee agreement with Pre-Merger US Airways, the Company's fuel reimbursement was capped at \$0.85 per gallon. Under this agreement, the Company had the option to purchase fuel from a subsidiary of US Airways at the capped rate. As a result, amounts included in revenue for fuel reimbursement and expense for fuel cost may not represent market rates for fuel for the Company's Pre-Merger US Airways flying. The Company purchased 0.9 million gallons of fuel under this arrangement in the quarter ended June 30, 2006 and 13.9 million gallons of fuel under this arrangement for the nine months ended June 30, 2006. This agreement ended May 31, 2006.

The US Airways and Midwest Airlines B1900D turboprop code-share agreements are pro-rate agreements. Under a pro-rate agreement, we receive a percentage of the passenger's fare based on a standard industry formula that allocates revenue based on the percentage of transportation provided. Revenue from our pro-rate agreements and our independent operation is recognized when transportation is provided. Tickets sold but not yet used are included in air traffic liability on the condensed consolidated balance sheets.

We also receive subsidies for providing scheduled air service to certain small or rural communities. Such revenue is recognized in the period in which the air service is provided. The amount of the subsidy payments is determined by the United States Department of Transportation on the basis of its evaluation of the amount of revenue needed to meet operating expenses and to provide a reasonable return on investment with respect to eligible routes. EAS rates are normally set for two-year contract periods for each city.

Allowance for Doubtful Accounts

Amounts billed by the Company under revenue guarantee arrangements are subject to our interpretation of the applicable code-share agreement and are subject to audit by our code-share partners. Periodically our code-share partners dispute amounts billed and pay amounts less than the amount billed. Ultimate collection of the remaining amounts not only depends upon Mesa prevailing under audit, but also upon the financial well-being of the code-share partner. As such, we periodically review amounts past due and record a reserve for amounts estimated to be uncollectible. The allowance for doubtful accounts was \$2.2 million and \$1.6 million at June 30, 2007 and September 30, 2006, respectively. If our actual ability to collect these receivables and the actual financial viability of our partners is materially different than estimated, the Company's estimate of the allowance could be materially understated or overstated. The Company is currently engaged in a dispute with US Airways over fees payable pursuant to its Code Share and Revenue Sharing Agreement (the "Code Share Agreement"). The disagreement stems from payments due the Company from US Airways with respect to reimbursable operating costs and expenses relating to certain of the Company's CRJ-900 aircraft. The disputed amount that has not been paid by US Airways as of June 30, 2007 is \$7.2 million and increases by \$0.2 million per month during the term of the Code Share Agreement that the dispute remains unresolved. The Company believes that these reimbursable costs and expenses are in accordance with the terms and conditions of the Code Share Agreement and are immediately due and payable. This \$7.2 million receivable is part of a total receivable from US Airways of \$16.7 million at June 30, 2007.

Subsequent to June 30, 2007, the Company reached a tentative settlement with respect to its dispute with US Airways. In settlement of all outstanding disputes between the two parties through July 2007, US Airways has agreed to pay the Company a lump sum of \$7,464,000 plus agreed upon monthly amounts per aircraft for the period commencing in August 2007 through the balance of the contract. This payment was received from US Airways on August 9, 2007. Such terms are subject to the execution of an amendment to the Code Share Agreement in form and substance acceptable to the parties.

Aircraft Leases

The majority of the Company's aircraft are leased from third parties. In order to determine the proper classification of a lease as either an operating lease or a capital lease, the Company must make certain estimates at the inception of the lease relating to the economic useful life and the fair value of an asset as well as select an appropriate discount rate to be used in discounting future lease payments. These estimates are utilized by management in making computations as required by existing accounting standards that determine whether the lease is classified as an operating lease or a capital lease. All of the Company's aircraft leases have been classified as operating leases, which results in rental payments being charged to expense over the terms of the related leases. Additionally, operating leases are not reflected in the Company's condensed consolidated balance sheet and accordingly, neither a lease asset nor an obligation for future lease payments is reflected in the Company's condensed consolidated balance sheet.

Accrued Health Care Costs

We are self-insured up to a cap for health care costs and as such, a reserve for the cost of claims that have not been paid as of the balance sheet date is estimated. Our estimate of this reserve is based upon historical claim experience and upon the recommendations of our health care provider. At June 30, 2007 and September 30, 2006, we accrued \$2.2 million and \$2.6 million, respectively, for the cost of future health care claims. If the ultimate development of these claims is significantly different than those that have been estimated, the accrual for future health care claims could be materially overstated or understated.

Accrued Worker's Compensation Costs

We are self-insured up to a cap for worker's compensation claims and as such, a reserve for the cost of claims that have not been paid as of the balance sheet date is estimated. Our estimate of this reserve is based upon historical claim experience and upon the recommendations of our third-party administrator. At June 30, 2007 and September 30, 2006, we accrued \$2.0 million and \$3.4 million, respectively, for the cost of worker's compensation claims. If the ultimate development of these claims is significantly different than those that have been estimated, the accrual for future worker's compensation claims could be materially overstated or understated.

Long-lived Assets, Aircraft and Parts Held for Sale

Property and equipment are stated at cost and depreciated over their estimated useful lives to their estimated salvage values using the straight-line method. Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the related carrying amount may be impaired. Under the provisions of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," the Company records an impairment loss if the undiscounted future cash flows are found to be less than the carrying amount of the asset. If an impairment loss has occurred, a charge is recorded to reduce the carrying amount of the asset to fair value. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell. See Note 14 on impairment.

Valuation of Deferred Tax Assets

The Company records deferred tax assets for the value of benefits expected to be realized from the utilization of alternative minimum tax credit carryforwards and state and federal net operating loss carryforwards. We periodically review these assets for realizability based upon expected taxable income in the applicable taxing jurisdictions. To the extent we believe some portion of the benefit may not be realizable, an estimate of the unrealized portion is made and an allowance is recorded. At June 30, 2007, we had a valuation allowance of \$0.6 million for certain state net operating loss carryforwards because we believe we will not be able to generate sufficient taxable income in these jurisdictions in the future to realize the benefits of these recorded deferred tax assets. We believe the Company will generate sufficient taxable income in the future to realize the benefits of its other deferred tax assets. This belief is based upon the Company having had pretax income in fiscal year 2006, 2005 and 2004 and we have taken steps to minimize the financial impact of its unprofitable subsidiaries. Realization of these deferred tax assets is dependent upon generating sufficient taxable income prior to expiration of any net operating loss carryforwards. Although realization is not assured, management believes it is more likely than not that the remaining, recorded deferred tax assets will be realized. If the ultimate realization of these deferred tax assets is significantly different from our expectations, the value of its deferred tax assets could be materially overstated.

AIRCRAFT

The following table lists the aircraft owned and leased by the Company for scheduled operations as of June 30, 2007:

Type of Aircraft	Number of Aircraft				Operating on June 30, 2007	Passenger Capacity
	Owned	Interim Financing	Leased	Total		
CRJ-200/100 Regional Jet	2	—	57	59	58	50
CRJ-700 Regional Jet	8	—	12	20	20	66
CRJ-900 Regional Jet	14	—	24	38	38	86
Embraer 145 Regional Jet	—	—	36	36	36	50
Beechcraft 1900D	34	—	—	34	20	19
Dash-8	—	—	28	28	27	37
Total	58	—	157	215	199	

Fleet Plans

CRJ Program

As of June 30, 2007, we operated 116 Canadair Regional Jets (58 CRJ-200/100, 20 CRJ-700 and 38 CRJ-900s). In January 2004, we exercised options to purchase 20 CRJ-900 aircraft (seven of which can be converted to CRJ-700 aircraft). As of June 2007, we have taken delivery of 13 CRJ-900 aircraft and five CRJ-700 aircraft. In April 2007, we accepted delivery of two of the five CRJ-700 aircraft. The option to purchase the remaining two CRJ-900s (which can be converted to CRJ-700s) were terminated in June 2007 in connection with our agreement to purchase 10 new CRJ-700 NextGen aircraft (with an option to purchase an eleventh); deliveries beginning in September 2008.

ERJ Program

As of June 30, 2007, we operated 36 Embraer 145 aircraft. We acquired all 36 ERJ-145s through a June 1999 agreement with Empresa Brasileira de Aeronautica S.A. ("Embraer"). We also have options for 25 additional aircraft. In September 2006, our contract with Embraer was amended to extend the option exercise date to August 2007 for deliveries beginning in January 2009.

Beechcraft 1900D

As of June 30, 2007, we owned 34 Beechcraft 1900D aircraft and were operating 20 of these aircraft. We lease four of our Beechcraft 1900D to Gulfstream International Airlines, a regional turboprop air carrier based in Ft. Lauderdale, Florida and lease an additional 10 Beechcraft 1900D aircraft to Big Sky Transportation Co., a regional turboprop carrier based in Billings, Montana ("Big Sky").

Dash-8

As of June 30, 2007, we operated 27 Dash-8 aircraft. In the fourth quarter of fiscal 2006, we took delivery of four Dash-8 aircraft and placed them into revenue service during the first quarter of fiscal 2007. As discussed in Note 14 on impairment we will ground these aircraft by September 2008. Losses will be incurred as each aircraft is returned for early termination penalties, lease settle up and other charges.

Aircraft Financing Relationships with the Manufacturer

At September 30, 2006, the Company had \$123.1 million in notes payable to an aircraft manufacturer for five aircraft on interim financing. During the second quarter of 2007, the Company permanently financed these five aircraft as well as a sixth aircraft delivered during the first quarter of 2007 with \$135.4 million in long-term debt. Under interim financing arrangements, the Company takes delivery and title to the aircraft prior to securing

permanent financing and the acquisition of the aircraft is accounted for as a purchase with debt financing. Accordingly, the Company reflects the aircraft and debt under interim financing on its balance sheet during the interim financing period. After taking delivery of the aircraft, it is the Company's intention to permanently finance the aircraft as an operating lease through a sale and leaseback transaction with an independent third-party lessor. Upon permanent financing, the proceeds are used to retire the notes payable to the manufacturer. Any gain recognized on the sale and leaseback transaction is deferred and amortized over the life of the lease. The current interim financing agreement with the manufacturer provides for the Company to have a maximum of 15 aircraft on interim financing at a given time.

Item 3. Qualitative and Quantitative Disclosure about Market Risk.

There were no material changes in the Company's market risk from September 30, 2006 to June 30, 2007.

Item 4. Controls and Procedures.

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 as amended (the "Exchange Act"), as of the end of the period covered by this *Quarterly Report on Form 10-Q*, the Company's management evaluated, with the participation of the Company's principal executive officer and principal financial officer, the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act). Disclosure controls and procedures are defined as those controls and other procedures of an issuer that are designed to ensure that the information required to be disclosed by the issuer in the reports it files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation of these disclosure controls and procedures, the Company's chairman of the board and chief executive officer and the Company's executive vice president and chief financial officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation to ensure that material information relating to the Company, including its consolidated subsidiaries, was made known to them by others within those entities, particularly during the period in which this *Quarterly Report on Form 10-Q* was being prepared. There were no changes in our internal control over financial reporting during the quarter ended June 30, 2007, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting except for certain turnover in senior accounting and finance positions during the current quarter. These positions were backfilled with a combination of permanent employees, consultants and contractors.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

In February 2006, Hawaiian Airlines, Inc. ("Hawaiian") filed a complaint against the Company in the United States Bankruptcy Court for the District of Hawaii (the "Bankruptcy Court") alleging that the Company breached the terms of a Confidentiality Agreement entered into in April 2004 with the Trustee in Hawaiian's bankruptcy proceedings. Hawaiian's complaint alleges, among other things, that the Company breached the Confidentiality Agreement by (a) using the evaluation material to obtain a competitive advantage over Hawaiian, through the development and implementation of a business plan to compete with Hawaiian in the inter-island market, and (b) failing to return or destroy any evaluation materials after being notified by Hawaiian on or about May 12, 2004 that the Company had not been selected as a potential investor for a transaction with Hawaiian. Hawaiian, in its complaint, seeks unspecified damages, requests that the Company turn over to Hawaiian any evaluation material in the Company's possession, custody or control (the "Turnover Claim"), and an injunction preventing the Company from providing inter-island transportation services in the State of Hawaii for a period of two years from the date of such injunctive relief.

The Company vigorously denies Hawaiian's allegations and requests for relief contained in its complaint. The Company filed both an answer and an antitrust counterclaim against Hawaiian in response to its complaint. In May 2006, the Company filed a motion to dismiss the Turnover Claim contained in Hawaiian's complaint, but the Bankruptcy Court denied that motion. On December 8, 2006 the Bankruptcy Court, based on constitutional access to the courts, also granted Hawaiian's motion for summary judgment against the Company on its antitrust counterclaim. The Company does not believe that either of these decisions has a material impact on the Company's position in the lawsuit. Finally, in October 2006, the Bankruptcy Court denied Hawaiian's effort to enjoin the Company's *go!* operation from selling tickets claiming that *go!*'s entry into the inter-island air transport business was based on trade secrets furnished to Mesa during the Hawaiian bankruptcy. The Court found no such misuse of confidential information and rejected Hawaiian's motion for a preliminary injunction.

In June 2006, Hawaiian requested a preliminary injunction to prevent the Company from issuing new airline tickets for the Hawaiian inter-island market for a period of one year. In this request, Hawaiian alleges that initial discovery conducted reveals that the Company breached the Confidentiality Agreement. The Court has recently denied Hawaiian's request for a preliminary injunction. The case will be tried in September 2007.

On October 13, 2006, Aloha Airlines filed suit against Mesa Air Group and two of its Hawaii based employees (individual defendants subsequently dismissed without prejudice). The complaint was filed in state court in Hawaii and contains 11 counts and seeks damages and injunctive relief. The clear purpose of the complaint is to blunt Mesa's entry into the Hawaii inter-island market segment. Aloha alleges that Mesa's inter-island air fares are below cost and that Mesa is, therefore, violating specific provisions of Hawaii antitrust and unfair competition law. Aloha also alleges breach of contract and fraud by Mesa in connection with two confidentiality agreements, one in 2005 and the other in 2006.

In 1992, The Supreme Court of the United States decided Morales v. TWA, in which it construed the Airline Deregulation Act as prohibiting any state court, under any state law legal theory, from adjudicating issues which implicated an air carrier's pricing (or other service) practices. Accordingly, an airline's pricing decisions can be attacked only under federal laws. In response to the complaint, Mesa filed a motion on December 8, 2006 seeking dismissal of all claims based upon Hawaii Statutory Law that rest on Mesa's alleged below-cost pricing. Following the filing of Mesa's Motion to Dismiss, Aloha, on January 10, 2007, voluntarily chose to dismiss the action filed in State Court, and simultaneously filed a new complaint in the United States District Court for the District of Hawaii (filed on January 9, 2007). Aloha's federal complaint abandoned claims regarding below-cost pricing under Hawaii's Statutory Law and instead asserted claims under contract and federal antitrust law. On March 19, 2007, the United States District Court denied Mesa's motion to dismiss the contract claims under the authority of Morales and its progeny. Mesa has asked the District Court to certify that ruling for immediate appellate review.

Mesa also denies any improper use of the data furnished by Aloha while Mesa was considering a bid for Aloha during its bankruptcy. The case is in its early stages and has been set for trial in April 2008.

We are involved in various legal proceedings and FAA civil action proceedings that the Company does not believe will have a material adverse effect upon the Company's business, financial condition or results of operations, although no assurance can be given to the ultimate outcome of any such proceedings.

Item 1.A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part 1, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended September 30, 2006, which could materially affect our business, financial condition or future results. We caution the reader that these risk factors may not be exhaustive. We operate in a continually changing business environment and new risk facts emerge from time to time. Management cannot predict such new risk factors, nor can we assess the impact, if any, of such new risk factors, nor can we assess the impact, if any, of such new risk factors on our business or to the extent to which any factor or combination of factors may impact our business. There have not been any material changes during the quarter ended June 30, 2007 from the risk factors disclosed in the above-mentioned Form 10-K for the year ended September 30, 2006, except as provided below:

If we experience a lack of labor availability or strikes, it could result in a decrease of revenues due to the cancellation of flights.

The operation of our business is significantly dependent on the availability of qualified employees, including, specifically, flight crews, mechanics and avionics specialists. Historically, regional airlines have periodically experienced high pilot turnover as a result of air carriers operating larger aircraft hiring their commercial pilots. Further, the addition of aircraft, especially new aircraft types, can result in pilots upgrading between aircraft types and becoming unavailable for duty during the required extensive training periods. There can be no assurance that we will be able to maintain an adequate supply of qualified personnel or that labor expenses will not increase.

At June 30, 2007, we had approximately 5,100 employees, approximately 2,750 of whom are members of labor unions, including ALPA and the AFA. Our collective bargaining agreement with ALPA becomes amendable in September 2007 and our collective bargaining agreement with the AFA became amendable in June 2006 and the Company is in the early stages of negotiations with its flight attendants. The inability to negotiate acceptable contracts with existing unions as agreements become amendable or with new unions could result in work stoppages by the affected workers', lost revenues resulting from the cancellation of flights and increased operating costs as a result of higher wages or benefits paid to union members. We cannot predict which, if any, other employee groups may seek union representation or the outcome or the terms of any future collective bargaining agreement and therefore the effect, if any, on our business financial condition and results of operations. If negotiations with unions over collective bargaining agreements prove to be unsuccessful, following specified "cooling off" periods, the unions may initiate a work action, including a strike, which could have a material adverse effect on our business, financial condition and results of operations.

We are currently observing increased pilot turnover and pilot turnover at times is a significant issue among regional carriers when major carriers are hiring experienced commercial pilots away from regional carriers. The addition of aircraft, especially new aircraft types, can result in pilots upgrading between aircraft types and becoming unavailable for duty during the extensive training periods required. No assurances can be made that pilot turnover and unavailability will not be a significant problem in the future, particularly if major carriers expand their operations. Similarly, there can be no assurance that sufficient numbers of new pilots will be available to support any future growth. We are currently observing the highest turnover among pilots serving in the United Express system. We believe the operational challenges are unique to the United Express system, particularly the schedules developed by United and difficulties experienced during irregular operations are driving this trend. While we are taking steps to address increased turnover, no assurances can be made that adequate replacement pilots can be retained and trained in a timely manner or that we will have sufficient staffing to cover our flight operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(A) None

(B) None

(C) The Company's Board of Directors have authorized the Company to purchase up to 29.4 million shares of the Company's outstanding common stock. As of June 30, 2007, the Company has acquired and retired approximately 15.9 million shares of its outstanding common stock at an aggregate cost of approximately \$106.8 million, leaving approximately 13.5 million shares available for purchase under existing Board authorizations. Purchases are made at management's discretion based on market conditions and the Company's financial resources.

The Company repurchased the following shares for \$15.3 million during the three months ended June 30, 2007:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares That May yet be Purchased Under the Plan
Three months ended June 30, 2007	2,248,246	\$ 6.79	15,901,185	13,521,076
Nine months ended June 30, 2007	5,470,645	\$ 7.33	15,901,185	13,521,076

Item 3. Defaults upon Senior Securities.

**BYLAWS
OF
MESA AIR GROUP, INC.
(As amended August 9, 2007)**

**ARTICLE I
OFFICES AND CORPORATE SEAL**

1.1 *Offices.* The registered office of the corporation in the State of Nevada shall be located at 530 Las Vegas Boulevard South, Las Vegas, Nevada 89101. The corporation may conduct business and may have such other offices, either within or without the state of incorporation, as the Board of Directors may designate or as the business of the corporation may from time to time require.

1.2 *Corporate Seal.* A corporate seal is not required on any instrument executed for the corporation. If a corporate seal is used, it shall be either a circle having on its circumference "Mesa Air Group, Inc.," and in the center "incorporated 1996 Nevada," or a circle having on its circumference the words "Corporate Seal."

**ARTICLE II
SHAREHOLDERS**

2.1 *Annual Meeting.* The annual meeting of the shareholders shall be held on March 15 of each year, at 10:00 o' clock a.m., or at such other time or on such other day as shall be fixed by the Board of Directors, for the purpose of electing directors and for the transaction of such other business as may come before the meeting. If the day fixed for the annual meeting shall be a legal holiday such meeting shall be held on the next succeeding business day.

2.2 *Special Meetings.* The Chairman of the Board may and the Chairman of the Board or the Secretary shall, on written request of two members of the Board of Directors or of shareholders owning not less than 50 percent of the outstanding voting shares of the corporation, call special meetings of the shareholders, for any purpose or purposes unless otherwise prescribed by statute. The written request and the notice of the special meeting shall state the purposes of the meeting and the business transacted at the meeting shall be limited to the purposes stated in the notice.

2.3 *Place of Meeting.* The Board of Directors and the Chairman of the Board or the Secretary shall fix the time and place of all meetings of shareholders.

2.4 *Notice of Meeting.* Written notice stating the place, day and hour of the meeting and, in case of a special meeting, the purpose or purposes for which the meeting called, shall be delivered not less than 10 nor more than 60 days before the date of the meeting either personally or by mail to each shareholder of record entitled to vote at such meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the shareholder at this address as it appears on the stock transfer books of the corporation, with postage thereon prepaid.

2.5 *Fixing Date for Determination of Shareholders of Record.* To determine the shareholders entitled to notice of or to vote at any meeting of shareholders or any adjournment thereof, or entitled to express written consent to corporate action in writing without a meeting, or entitled to receive payment of any dividend or other distribution or allotment of any rights, or entitled to exercise any rights in respect of any change, conversion or exchange of shares or for the purpose of any other lawful action, the Board of Directors of the corporation may fix, in advance, a record date which shall not be more than 60 days nor less than 10 days before the date of such meeting, nor more than 60 days nor less than 10 days prior to any other action.

2.6 *Shareholder List.* The officer or agent having charge of the stock transfer books shall prepare, at least ten days before each meeting of shareholders, a complete list of the shareholders entitled to vote at such meeting, or any adjournment thereof, arranged in alphabetical order with the address of and the number of shares held by each shareholder of record.

2.7 *Quorum.* A majority of the outstanding shares of the corporation entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders. All shares represented and entitled to vote on any single subject matter which may be brought before the meeting shall be counted for the purposes of a quorum. Only those shares entitled to vote on a particular subject matter shall be counted for the purposes of voting on that subject matter. Business may be conducted once a quorum is present and may continue until adjournment of the meeting notwithstanding the withdrawal or temporary absence of sufficient shares to reduce the number present to less than a quorum. Unless otherwise required by law, the affirmative vote of the majority of shares represented at the meeting and entitled to vote on a subject matter shall constitute the act of the shareholders provided, however, that if the shares then represented are less than required to constitute a quorum, the affirmative vote must be such as would constitute a majority if a quorum were present and, provided further, that the affirmative vote of the majority of the shares then present is sufficient in all cases to adjourn the meeting.

2.8 *Proxies.* At all meetings of shareholders, a shareholder may vote in person or by proxy executed in writing by the shareholder or by his duly authorized attorney-in-fact. No proxy shall be valid after six months from the date of its execution, unless otherwise provided in the proxy, but in no event shall the proxy be valid for greater than seven years. Subject to these restrictions, any proxy properly created is not revoked and continues in full force and effect until another instrument or transmission revoking it or a properly created proxy bearing a later date is filed with or transmitted to the Secretary.

2.9 *Voting Rights.* Unless otherwise provided in the Articles of Incorporation or by the Nevada Revised Statutes, each outstanding share of capital stock shall be entitled to one vote on each matter submitted to a vote at a meeting of shareholders. At each election for directors every shareholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected for whose election he has a right to vote. Cumulative voting shall not be permitted. The candidates receiving the highest number of votes up to the number of directors to be elected are elected.

ARTICLE III BOARD OF DIRECTORS

3.1 *General Powers.* The business and affairs of the corporation shall be managed by its Board of Directors. The directors shall in all cases act as a Board, and they may adopt such

rules and regulations for the conduct of their meetings and the management of the corporation, as they may deem proper, not inconsistent with these Bylaws and the laws of Nevada.

3.2 *Number, Tenure and Qualifications.* The Board of Directors shall consist of not less than five and up to nine directors. Each director shall hold office until the next annual meeting of shareholders and until his successor shall have been elected and qualified, or until his earlier resignation or removal. Should the number of directors be fixed at nine or more, the Board may, by resolution, classify the Board into three classes of directors. Each class of directors shall be elected for staggered terms so that approximately one-third of the total number of directors shall be elected at each annual meeting. Directors need not be residents of the State of Nevada or shareholders of the corporation. (Amended as of August 9, 2007).

3.3 *Annual Meetings.* The Board of Directors shall hold its annual meeting immediately following the annual meeting of shareholders at the place announced at the annual meeting of shareholders. No notice is necessary to hold the annual meeting, provided a quorum is present. If a quorum is not present, the annual meeting shall be held at the next regular meeting or as a special meeting.

3.4 *Regular Meetings.* The Board of Directors may hold regular meetings without notice at the times and places determined by the Board of Directors.

3.5 *Special Meetings.* The Chairman of the Board or Secretary may, and on written request of two directors shall, call special meetings of the Board of directors on not less than two days' notice to each director personally or by telegram or telephone, or on not less than five days' notice to each director by mail.

3.6 *Telephonic Meetings.* Regular or special meetings of the Board of Directors may be held at any place within or without the State of Nevada and may be held by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other, their participation in such a meeting to constitute presence in person.

3.7 *Waiver of Notice.* Attendance of a director at a meeting shall constitute waiver of notice unless the director objects at the commencement of the meeting that the meeting is not lawfully called or convened. Any director may waive notice of any meeting by executing a written waiver of notice.

3.8 *Quorum.* A majority of the directors then serving shall constitute a quorum for the transaction of business, but if less than said number is present at a meeting, a majority of the directors present may adjourn the meeting from time to time without further notice. The act of a majority of the directors present at a meeting at which a quorum is present, unless otherwise provided by the Nevada Revised Statutes, these Bylaws or the Articles of Incorporation, shall be the act of the Board of Directors.

3.9 *Newly Created Directorships.* The Board of Directors may increase the number of directors by a majority vote. Newly created directorships resulting from an increase in the number of directors may be filled by a majority vote of the directors then in office. The term of any newly created directorship shall be determined by the Board of Directors.

3.10 *Removal of Directors.* At a meeting of shareholders called expressly for that purpose and by a vote of the holders of not less than two-thirds of the shares then entitled to vote at an election of the directors, any director or the entire Board of Directors may be removed, with or without cause.

3.11 *Vacancies.* Directors shall be elected to fill any vacancy by a majority vote of the remaining directors, though not less than a quorum, or by a sole remaining director. A director elected to fill a vacancy caused by resignation, death or removal shall be elected to hold office for the unexpired term of his or her successor.

3.12 *Committees of the Board.* The Board of Directors, by resolution adopted by a majority of the Board of Directors, may designate from among its members an executive committee and one or more other committees each of which, to the extent provided in such resolution and permitted by the Nevada Revised Statutes, shall have and may exercise all the authority of the Board. The Board, with or without cause, may dissolve any such committee or remove any member thereof at any time. The designation of any such committee and the delegation thereto of authority shall not operate to relive the Board, or any member thereof, of any responsibility imposed by law. No committee shall have the power or authority to amend the Articles of Incorporation or Bylaws; adopt a plan of merger or consolidation, recommend to the shareholders the sale, lease, or other disposition of all or substantially all the property and assets of its business, or recommend to the shareholders a voluntary dissolution of the corporation. Each committee shall keep regular minutes of its meetings.

3.13 *Action without a Meeting.* Any action required or permitted to be taken by the Board of Directors at a meeting may be taken without a meeting if all directors consent thereto in writing. Such consent shall have the same effect as a unanimous vote. The writing or writings shall be filed with the minutes of the Board of Directors.

3.14 *Compensation.* The corporation may pay, or reimburse the directors for, the expenses of attendance at each annual meeting of the Board of Directors. The corporation may pay the directors a fixed sum for attendance at each meeting of the Board of Directors and a stated salary as director or directors may be granted stock options, stock appreciation rights (SARs), stock or a combination thereof. The Board of Directors shall establish and set forth in its minutes the amount or rate of compensation of directors. (Amended as of January 29, 1998).

3.15 *Presumption of Assent.* A director of the corporation who is present at a meeting of the Board of Directors at which action on any corporate matter is taken shall be presumed to have assented to the action unless his dissent shall be entered in the minutes of the meeting or unless he shall file a written dissent to such action with the Secretary of the meeting before the adjournment thereof or shall forward such dissent by registered or certified mail to the Secretary of the Corporation within three business days after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

ARTICLE IV OFFICERS

4.1 *Number.* The officers of the corporation shall be a Chairman of the Board, a Chief Executive Officer, a President, a Secretary, a Chief Financial Officer and a Treasurer, each of whom shall be appointed by the Board of Directors. Such other officers, assistant officers and

agents as deemed necessary may be elected or appointed by the Board of Directors. Any two or more offices may be held by the same person, except the offices of President and Secretary. (Amended as of January 29, 1998).

4.2 *Tenure and Duties of Officers.* The officers of the corporation are to be appointed by the Board of Directors at the annual meeting of the Board of Directors. Officers shall hold office at the pleasure of the Board and shall exercise the power and perform the duties determined from time to time by the Board of Directors until his successor shall have been duly elected and shall have qualified or until his death or until he shall resign or shall have been removed in the manner hereinafter provided.

4.3 *Removal.* Any officer or agent elected or appointed by the Board of Directors may be removed by the affirmative vote of a majority of the directors, but such removal shall be without prejudice to the contract rights, if any, of the person so removed.

4.4 *Chairman of the Board.* The Chairman of the Board, if such an officer be elected, shall, if present, preside at the meetings of the Board of Directors and the Shareholders and exercise and perform such other powers and duties as may, from time to time, be assigned by the Board of Directors or prescribed by the Bylaws. The Chairman of the Board shall be an ex-officio, non-voting member of all committees of the Board of Directors. (Amended as of January 29, 1998)

4.5 *Chief Executive Officer.* The Chief Executive Officer of the corporation, subject to the control of the directors, shall in general supervise and control all business and affairs of the corporation. He shall perform all duties incident to the office of Chief Executive Officer and such other duties as may be prescribed by the directors from time to time. Unless otherwise ordered by the Board of Directors, the Chief Executive Officer shall have full power and authority on behalf of the corporation to attend and to act and to vote at any meeting of security holders of other corporations in which the corporation may hold securities. At such meeting, the Chief Executive Officer shall possess and may exercise any and all rights and powers incident to the ownership of such securities which the corporation might have possessed and exercised if it had been present. The Board of Directors from time to time may confer similar powers upon any other person or persons. (Amended as of January 29, 1998)

4.6 *President.* In the absence of the Chief Executive Officer or in the event of his inability or refusal to act, the President shall perform the duties of the Chief Executive Officer, and when so acting, shall have all the powers of and be subject to all the restrictions upon the Chief Executive Officer. (Amended as of January 29, 1998)

4.7 *Vice Presidents.* There shall be as many vice presidents as the Board of Directors chooses to appoint. Vice Presidents shall perform the duties assigned to them by the Board of Directors or the Chairman of the Board or the President. Anyone of the Vice Presidents, as authorized by the Board of Directors, shall have all the powers and perform all the duties of President if the President is temporarily absent or unable to act. (Amended as of January 29, 1998)

4.8 *Secretary.* The Secretary shall attend all meetings of the Board of Directors and the shareholders and shall keep the minutes of the shareholders' and of the directors' meetings in one or more books provided for that purpose, see that all notices are duly given in accordance with the provisions of these Bylaws or as required by law, have charge of the corporate records, books and accounts, and keep a register of the post office address of each shareholders which shall be

furnished to the Secretary by such shareholder, have general charge of the stock transfer books of the corporation, and in general perform all duties incident to the office of Secretary, and perform such other duties as from time to time may be assigned to him by the Board of Directors or the Chief Executive Officer. (Amended as of January 29, 1998)

4.9 *Chief Financial Officer/Treasurer.* The Chief Financial Officer/Treasurer shall be the chief financial officer of the Corporation. If required by the Board of Directors, the Chief Financial Officer/Treasurer shall give a bond for the faithful discharge of his duties in such sum and with such surety as the directors shall determine. He shall have charge and custody of and be responsible for all funds and securities of the corporation; receive and give receipts for monies due and payable to the corporation from any source whatsoever, and deposit all such monies in the name of the corporation in such banks, trust companies or other depositories as shall be selected by the Board of Directors and in general perform all of the duties incident to the office of Chief Financial Officer/Treasurer and such other duties as from time to time may be assigned to him by the Chairman of the Board or by the directors.

ARTICLE V CERTIFICATES FOR SHARES AND THEIR TRANSFER

5.1 *Issuance; Certificates for Shares.*

5.1.1 Shares of the corporation's capital stock may be certificated or uncertificated. If certificated, certificates representing the shares of the corporation shall be in such form as shall be determined by the Board of Directors. Such certificates shall be signed by the Chairman of the Board or President and by the Secretary or an Assistant Secretary of the corporation. The signatures of such officers upon a certificate may be facsimiles if the certificate is countersigned by a transfer agent or registered by a registrar, other than the corporation itself or any employee of the corporation. No certificate shall be issued for any share until such share is fully paid. (Amended as of August 9, 2007)

5.1.2 If the corporation is authorized to issue shares of more than one class, every certificate representing shares issued by the corporation shall set forth or summarize upon the face or back of the certificate, or shall state that the corporation will furnish to any shareholder upon request and without charge, a full statement of the designations, preferences, limitations and relative rights of the shares of each class authorized to be issued, together with the variations in the relative rights and preferences between the various shares.

5.1.3 Each certificate representing shares shall state upon the face thereof (i) that the corporation is organized under the laws of the State of Nevada, (ii) the name of the person to whom issued, (iii) the number, class and designation of the series, if any, which the certificate represents, and (iv) the par value of each share represented by the certificate or a statement that the shares are without par value; and the (v) date of issue.

5.1.4 Any restriction on the right to transfer shares and any reservation of lien on the shares shall be noted on the face or the back of the certificate by providing (i) a statement of the terms of such restriction or reservation, (ii) a summary of the terms of such restriction or reservation and a statement that the corporation will mail to the shareholder a copy of such restrictions or reservations without charge within five (5) days after receipt of written notice therefor, (iii) if the restriction or reservation is contained in the Articles of Incorporation or Bylaws of the corporation,

or in an instrument in writing to which the corporation is a party, a statement of that effect and a statement that the corporation will mail to the shareholder a copy of such restriction or reservation without charge within five days after receipt of written request therefor, or (iv) if each such restriction or reservation is contained in an instrument in writing to which the corporation is not a party, a statement that effect.

5.1.5 Each certificate for shares shall be consecutively numbered or otherwise identified.

5.2 *Transfers of Shares.*

5.2.1 Upon surrender to the corporation or the transfer agent of the corporation of a certificate for shares duly endorsed or accompanied by proper evidence of succession, assignment or authority to transfer, it shall be the duty of the corporation to issue a new certificate to the person entitled thereto, and cancel the old certificate; every such transfer shall be entered on the transfer book of the corporation.

5.2.2 The corporation shall be entitled to treat the holder of record of any shares as the holder in fact thereof, and, accordingly, shall not be bound to recognize any equitable or other claim to or interest in such share on the part of any other person whether or not it shall have express or other notice thereof, except as expressly provided by the laws of Nevada.

5.3 *Lost, Destroyed, Mutilated, or Stolen Certificates.* The holder of any shares of the corporation shall immediately notify the corporation of any loss, destruction, mutilation, or theft of the certificate therefor, and the Board of Directors, may, in its discretion, cause a new certificate or certificates to be issued to him, in case of mutilation of the certificate, upon the surrender of the mutilated certificate, or, in case of loss, destruction, or theft of the certificate, upon a satisfactory proof of such loss, destruction, or theft, and, if the Board of Directors shall so determine, the submission of a properly executed lost security affidavit and indemnity agreement, or the deposit of a bond in such form and in such sum, and with such surety or sureties, as the Board may direct.

**ARTICLE VI
INDEMNIFICATION**

6.1 *Indemnification.* Every person who was or is a party or is threatened to be made a party to or is involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he or a person of whom he is the legal representative is or was a director or officer of the corporation or is or was serving at the request of the corporation or for its benefit as a director or officer of another corporation, or as its representative in a partnership, joint venture, trust or other enterprise, shall be indemnified and held harmless to the fullest extent legally permissible under the general corporation law of the State of Nevada from time to time against all expenses, liability and loss (including attorneys' fees, judgments, fines and amounts paid or to be paid in settlement) reasonably incurred or suffered by him in connection therewith. The Board of Directors may in its discretion cause the expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding to be paid by the corporation as they are incurred and in advance of the final disposition of the action, suit or proceeding upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he is not entitled to be indemnified by the corporation. No such person shall be indemnified against, or be reimbursed for, any expense or

payments incurred in connection with any claim or liability established to have arisen out of his own willful misconduct or gross negligence. Any right of indemnification shall not be exclusive of any other right which such directors, officers or representatives may have or hereafter acquire and, without limiting the generality of such statement, they shall be entitled to their respective rights of indemnification under any Bylaws, agreement, vote of stockholders, provision of law or otherwise, as well as their rights under this Article.

6.2 *Insurance*. The Board of Directors may cause the corporation to purchase and maintain insurance on behalf of any person who is or was a director or officer of the corporation, or is or was serving at the request of the corporation as a director or officer of another corporation, or as its representative in a partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred in any such capacity or arising out of such status, whether or not the corporation would have the power to indemnify such person.

6.3 *Right to Amend Indemnification Provisions*. The Board of Directors may from time to time adopt further Bylaws with respect to indemnification and may amend these and such Bylaws to the full extent permitted by the General Corporation Law of the State of Nevada.

**ARTICLE VII
REPEAL, ALTERATION OR AMENDMENT**

These Bylaws may be altered, amended or repealed or new Bylaws may be adopted by a vote of the majority of the Board of Directors.

CERTIFICATE

I, Brian S. Gillman, the duly elected, qualified and acting Secretary of Mesa Air Group, Inc., a Nevada corporation, do hereby certify that the above and foregoing are the Bylaws of this corporation duly and regularly adopted by the Board of Directors.

IN WITNESS WHEREOF, I have hereunto set my hand this 9th day of August 2007.

Secretary

MESA AIR GROUP, INC. AND ITS SUBSIDIARIES
CERTIFICATION PURSUANT TO
RULE 13a-14(a)/15d-14(a)
OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

I, Jonathan G. Ornstein, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Mesa Air Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
